## Tommies Thrilled by News of American Victory

### CAPTURE OF ST. MIHIEL SALIENT IS COMPLETE; VICTORY OPENS RAILWAY LONG HELD BY GERMANS

LONDON, Sept. 13. (7:30 p. m.)—The operation of capturing the St. Mihiel salient is now complete, according to advices from the front this evening. Most of the villages in the pocket were found by the Americans to be in good condition. The American line now runs roughly from Pagny westward to Hannonville.

The American victory opens up the railway from Verdun to Commerieres, Sanchy, and Toul, which the Germans have controlled since early in the war.

BERLIN, Via London, Sept. 13.—“During the night the evacuation of the salient was completed without interference from the enemy and we are now standing in new lines which had been prepared,” the war office announced today.

“Southwest of Thiaucourt the enemy was repulsed.”  
It is not clear from the text of the statement whether the evacuation referred to was the entire St. Mihiel salient or merely that part of the line southwest of Thiaucourt.

(Undated War Lead, by United Press)

Crushing in the flanks of the St. Mihiel pocket, the American First Army today was reported to have reduced the avenue of escape for Germans in the salient to six miles, advanced eight miles from the south and three from the west, taking 9500 prisoners and sixty guns. The offensive was still in full blast today on all sides of the battered pocket before Metz, with the Americans making new gains hourly. Pershing's men are reported in London to have reached Vigneulles, in the middle of the original German wedge, which has existed like a thorn in the side of the Allied lines since 1914. The Germans are blowing ammunition dumps and are having much trouble getting their artillery out of the trap as intermittent rains have made the roads bad.

WITH THE AMERICANS ON THE METZ FRONT, Sept. 12. (Night)—All the American first objectives have been reached on schedule time.

LONDON, Sept. 13. (1:16 p. m.)—In their offensive against the St. Mihiel salient the Americans have captured sixty guns, according to information from the battlefield received here today.

PARIS, Sept. 13.—Secretary Baker is at the front where the Americans are pounding the Germans.

VIENNA, via London, Sept. 13.—In the St. Mihiel sector Austrian-Hungarian regiments southward of Combes heights, assured by strong resistance the systematic retreat of the Germans, the war office announced today.

LONDON, Sept. 13. (1:18 p. m.)—The advance of the Americans into the St. Mihiel salient from the south has now reached a depth of eight miles, according to information from the front this afternoon.

The enemy is blowing up ammunition dumps at Hannonville (in the middle of the pocket).

Latest reports of territory taken by the Americans indicate the neck of the salient has been narrowed to less than six miles. Six divisions remain in the pocket and their escape is improbable.

Dispatches from the front report prisoners taken by the Americans now total 9500.

The Americans are making progress so rapidly that the situation is changing momentarily. They are reported to have captured Vigneulles (in the center of the salient, seven miles northwest of St. Bousant, where the offensive hit the German line), and Beney (four and a half miles north and slightly east of St. Bousant).

The town of Hannonville is also reported to have fallen. The attack on the western side of the pocket has run into more difficult country and more serious resistance but the Americans have advanced to a depth of three miles.

German ammunition dumps are also being blown up at Domboux. (This town does not show on available maps. There is a town of Dampvillos slightly north of the actual battle zone.)

WITH THE AMERICANS ON THE METZ FRONT, Sept. 13.—The American advance is continuing today on both sides of the St. Mihiel salient between the Meuse and Moselle.

Additional prisoners are constantly being reported.

Rain is falling at intervals.

The Germans are having great difficulty in removing their artillery from the salient because of bad roads.

Among prisoners captured by the Americans was the German Count Szechyny. The American doughboys found him with his orderlies, their baggage unpacked, waiting to be captured.

Among the prisoners taken by the French were 350 Austrians.

WITH THE BRITISH ARMIES IN FRANCE, Sept. 13. (10:35 a. m.)—Germans in force continue stiff resistance about Goezeaucourt, throwing back the New Zealanders, advance south of Dead Man's Corner. In this encounter the enemy's troops exposed themselves to heavy casualties.

Under a hurricane bombardment by trench mortars and supported by the heaviest machine guns, the Germans attacked a post near Verdun today. The British garrison is reported holding on.

PARIS, Sept. 13.—“The American attack in the region of St. Mihiel continues successfully,” the French war office announced today.

“West of St. Quentin, Savy was occupied,” the statement said.

(This town is within four miles of St. Quentin.)

“Northeastward of Mesnil les Hurles an enemy surprise attack was repulsed. In the region of Verdun surprise attacks brought in prisoners.”

WITH THE BRITISH ARMIES IN FRANCE, Sept. 13.—An electric thrill ran the length of the British front at the news that the Americans had attacked on a big scale far at the other end of the long line.

The word was passed from mouth to mouth and by wire from the back areas to the front trenches.

“Good for the Yanks,” said many a Tommy and many an officer.

Regardless of the fact that there was no information as to the success of the attack, all seemed to assume the battle was going well.

In the region before Cambrai the Yorkshire troops, New Zealanders and others have pushed through 4000 yards of the Hindenburg line. With rain pouring down, thunder attempting to rival the roar of the guns and lightning vying with the flashes of batteries, the British swarmed out from the edge of shattered Havrincourt wood and despite the treacherous footing on the chalky, muddy slopes they overran the first trenches of the Hindenburg system, advancing to the long stone wall surrounded Havrincourt chateau and Creot hill.

They found difficult obstacles when they carried the same territory last fall, but knowledge of the ground aided them in this advance. They smothered the German machine guns and went on, stopping only when the village of Havrincourt was completely taken.

Thursday's operations make freshened German resistance in the neighborhood of Goezeaucourt of doubtful value and presaged an early withdrawal there and further south.

LONDON, Sept. 13.—The Germans have been driven from Holnon wood, before St. Quentin. Field Marshal Haig announced today.

“Yesterday the English gained possession of Holnon wood, driving the enemy from localities which offered resistance,” the statement said. “Farther north our line was advanced east of Jeancourt, which is in our hands.”

“In the evening strong hostile forces assisted by a squadron of low flying aeroplanes attacked our new positions at Havrincourt. They were repulsed with great loss.”

“Opposite Mouevres (Cambrai front) hostile infantry assembled for a counter attack was observed and subjected to a heavy and accurate artillery fire. The attack which developed subsequently was completely unsuccessful, the few Germans who reached our lines being killed or taken prisoner.”

“Progress was made by our troops during the night west of Auchy le La Basse (south of La Basse, in Flanders.)”

# 'SQUEEZE PLAY' IS USED IN THE AMERICAN DRIVE

Boche Must Quickly Pull Out of Sharp Salient or Suffer Big Catastrophe

By CARL D. GROAT  
(United Press Staff Correspondent)  
WASHINGTON, Sept. 13.—The new famous Poch "squeeze play" is being applied successfully to the American drive.

The Teutons are literally being squeezed out of the salient which St. Mihiel as its apex. Army experts today forecast that quickly the boche must pull out of that salient or face a catastrophe.

Pressure on both flanks of the salient has left the wedge narrower and it now appears it will be only a short time before the line is straightened out completely, running from Presmes to Pont-au-Mousson.

Eight thousand prisoners had been taken by the Pershing forces up to the time that the commanding general sent his communique last night.

The bag taken with a maximum advance of five miles the first day was a remarkable success.

Artillery and tanks appear to have swept the boche out in terror. The tanks—100 of them were used, according to United Press dispatches—have struck terror to the heart of the boche and neither his infantry nor machine gunners can stand before them.

That the operations started yesterday can be designated as major was the general thought here today. It covered too wide a front and appeared to have too strong a pressure behind to be simply a large local movement.

Besides making it possible to reach German soil by the shortest possible route, this action is destined to relieve pressure on the Allies farther north. American army officers say. The German concentration at St. Quentin had become grave and the Allied advance was considerably slowed up thereby.

Incidentally the present action may be a part of a plan to run the Germans out of France and Belgium by the same routes he took in entering four years ago.

General March, chief of staff, has said it is entirely feasible to push the boche back through these two channels and it is conceivable that that is the major strategy behind Poch's smashes.

American army men are gratified at the United States' push because it shows a determination to give the Hun no rest.

Some had feared a deadlock was coming in the west and that it would not be broken until spring, when America begins to reach the peak of her four million army plan. However, this brilliant offensive proves conclusively that Poch does not propose to give the German a chance to repair and re-form his armies.

American casualties are believed to have been small compared to the magnitude of the operations, especially as at some points of the advance the Germans had been blown out of their positions and repulsed.

and an advance of five miles at some points in the St. Mihiel sector was reported by General Pershing in Thursday's communique.

"This morning our troops, operating in the St. Mihiel sector, made considerable gains," Pershing said. "Assisted by French units they broke the enemy's resistance and advanced at some points to a depth of five miles. We have counted 8000 prisoners up to the present. The operation is still in progress."

## Our Offensive Develops Under Best of Conditions

LONDON, Sept. 13.—The American offensive is developing "under the best of conditions," according to the night report of the French war office.

"The American army attacked this morning in the region of St. Mihiel," said the statement. "The operation is developing under the best conditions."

Berlin, announcing the attack, said:

"Between the Meuse and Moselle the French and Americans attacked the St. Mihiel bend. The fighting continues."

The night report of the Paris war office also told of progress on the Holnon-Savy road, three and a half miles west of St. Quentin. Further north the British war office announced Haig's men arrived toward Cambrai, taking Trescault, Moeuvres, Goezencourt wood and Havrincourt.

## Harass Enemy Along Line South of Offensive Front

PARIS, Sept. 13.—Americans are harassing the Germans at many points along the front south of the St. Mihiel salient, where the big battle is being fought.

In a series of daring raids in Lorraine and in the Vosges the Americans captured numerous enemy positions, penetrated the German line at some points, meeting resistance and before retiring destroyed all the material they couldn't carry away.

Machine gun nests, blockhouses and dumps were blown up and very heavy losses inflicted on the enemy. Artillery fire is quiet on the less active stretches at the front.

## General Sends Greetings From Army to Exposition

CHICAGO, Sept. 13.—General J. J. Pershing on the eve of the first American offensive modestly yielded the compliment of "Pershing Day" here to his army. The war exposition committee, planning celebration of Pershing's birthday here today, received the following cable from Pershing:

"The army highly appreciates the celebration of Army Day and sends greetings. Unity at home will cheer us on to victory. PERSHING."

## Capture of St. Mihiel By French Not Confirmed

LONDON, Sept. 13.—St. Mihiel, at the apex of the salient before Metz, has fallen to the French, it was unofficially reported here today.

(The report of the capture of St. Mihiel was also cabled the United Press by Frank J. Taylor from the front. There is no official confirmation.)

## Attack of Americans Was a Complete Surprise

WASHINGTON, Sept. 13.—The American attack on the St. Mihiel sector was a complete surprise to the Germans, according to reliable information at the war department today. The Germans were completely fooled by the apparent inaction of the Americans, which resulted from direct orders not to fire any artillery and not to show any signs of unusual activity up to the appointed hour.

## St. Mihiel Salient Doomed; London Papers Laud Yanks

BY ED. L. KEEN  
(United Press Staff Correspondent)

LONDON, Sept. 13.—Battered in from the south and west by the Americans in their first great offensive, the St. Mihiel salient is undoubtedly doomed. The only question is whether the Germans can get out their garrison in time to prevent its capture.

This salient was one of the strongest and most vital points on the whole front—the Germans had been fortifying it for years. Today the situation is similar to that which existed in the Soissons-Rheims pocket, except that now the Americans and French are pinching off the salient, working at a double quick pace. It is not believed Pershing's objective is more than the capture of the pocket, which is nearly completed.

With this operation developing so victoriously, however, there is a great likelihood of further American action in the Vosges.

The allied advance on the Metz front is vitally important. It brings Briey (the great mining basin of France) under the fire of long range guns.

London morning newspapers pay high tribute to the Americans, giving the story of their offensive prominence over Premier Lloyd-George's speech at Manchester.

"This is one of the great moments of the war," said the Mail. "Ludendorff has feared a blow in this quarter for weeks. The Kaiser screams with rage and alarm."

In huge black letters the Mirror proclaimed:

"Franco-Americans strike blows in Verdun sector."

"Unless the Germans repel one or the other of the American forces they must resort to 'elastic defense,'" said the Times. "The Germans are in a

sack and the strings are being drawn."

The Graphic printed a photograph of Pershing and on the first page declared:

"Americans smash St. Mihiel salient."

"It's a superb day's work," this newspaper declared, "the effects of which will deepen the gloom fast setting over the fatherland."

"Look at the map!" demanded the Express. "St. Mihiel is not far from the German frontier."

Headlines in the Post, the Telegraph and the Chronicle respectively proclaimed:

"Great attack by Americans," "American army strikes," and "Big American attack on the Lorraine front."

The Daily News in an article entitled "The First American Offensive," declared "the perplexities of the enemy give fresh proof of the commanding superiority of the Allies' resources and foreshadow the future course of the war."

# METZ IRON REGION IS THE OBJECTIVE OF YANKEE SMASH

33 American Air Squadrons Now Operating on Battle Front In France

WASHINGTON, Sept. 13.—The iron region around Metz is the objective of the American drive, according to the impression house military committee members say they gained from their war department conference today.

They said they were shown maps outlining the general progress and direction of the United States' thrust but were not informed of any fresh military developments.

They said Metz appeared about twenty miles from the American lines. General March was absent from the session and a subordinate took his place.

Committee members said afterward their recollection of airplane figures was that this country now has 33 distinctly American air squadrons operating on the front.

# AMERICANS CROSS THE MADINE RIVER

Some of St. Mihiel Salient Territory Is Level—Some High and Wooded

The territory within the St. Mihiel salient into which the Americans are advancing is partly high and wooded and partly comparatively level. In the western side of the pocket are the heights of the Meuse, difficult fighting country, but toward the northern hinge of the salient Pershing's men in their first blow penetrated about a mile and a half to Dommarin and Combres, some of this gain being made into the hills.

On the southern side of the pocket, where the greatest initial advance was won, the terrain is smooth and well adapted to operation of tanks, which crossed the enemy line near St. Baussant.

The Americans have crossed the Madine river, a small stream, and are reported clear through Thiaucourt wood, north of which is Vigneulles, in the center of the pocket. Thiaucourt and Pannes, taken by the Americans, are both junctions of several highways. An important highway runs from Thiaucourt directly across the salient near its base.

Toward the base of the pocket the terrain is smoother and the woods thin out. This district is dotted with villages and hamlets around which there has been no fighting since 1914. North of the salient but slightly out of the direct path of a drive toward Metz from the base of the pocket is the important town of Contfains, which has frequently been bombed by Allied airplanes.

## OIL MOP STARTS FIRE AT ANAHEIM

Neighbors Save Home From  
Blaze; Spontaneous Com-  
bustion Held the Cause

Local housekeepers who have been in the habit of leaving their oil mops about the house instead of putting them back, after use, in the time furnished with each one should take warning from a fire at Anaheim yesterday, which threatened to destroy the \$3000 home of Conrad Musch on South Palm street.

The family had gone away for the day, leaving their oil-soaked mop leaning against the outside wall of the house. Through some action of the sun or more likely spontaneous combustion, the mop became afire, and burned a hole through the side of the house. Watchful neighbors extinguished the fire, preventing more extensive damage.

Local insurance men have repeatedly warned against leaving oil mops outside of tin cans, and point to the Anaheim incident as a "horrible example" of what such carelessness might lead to should no one see the fire as it starts.

There has been filed here a notice of judgment entered in favor of claimants in a case that went before the State Compensation Insurance Fund. On February 13 a tree was felled upon E. V. Crellin's ranch, and it struck and caused the death of Ignacio Soto, a Mexican. Judgment is for \$34.50 to Dr. H. N. Brothers, \$5 to Dr. J. N. Bartholomew, \$250 to the Santa Ana hospital and \$110 to Angus McAllay, an undertaker of Fullerton, the amounts being those sought. Soto was employed by M. Pluneda, who had contracted to cut the trees for Crellin. Pluneda carried no insurance for his men, but Crellin as employer had a policy with the State Compensation Insurance Fund. The judgment orders that an execution be issued, and if Pluneda can be reached financially he will have to stand the judgments. If Pluneda does not satisfy the judgment, the State Compensation Insurance Fund must meet the judgment.

WIDOW IS WINNER IN  
HOMESTEAD CONTEST

This morning Judge Thomas awarded a homestead to Mrs. Nora Spradlin of Bolsa, widow of D. W. Spradlin. Spradlin, owner of the Bolsa store, died on May 5 without leaving a will. Having no children, his father, L. W. Spradlin, comes in for half of the estate, the other half to go to the widow, Mrs. Spradlin through Attorney Bishop petitioned for a widow's homestead upon the six lots that comprise the property at Bolsa. L. W. Spradlin entered an objection, declaring that the residence upon which the homestead was asked should be considered separate from the store building. The court ruled that the homestead should cover the entire property.

PROBABLY 7300  
REGISTERED IN  
THIS COUNTY  
FOR DRAFT

Figures May Vary From Un-  
official Reports Secured  
This Afternoon

There were probably 7300 men registered for the draft in Orange county yesterday. As yet totals for the county have not been made, and the figure given is partly through estimate.

At 2 o'clock this afternoon the exemption board of No. 1 district had its registrations returned from the precincts, and at that time the total registration for the district was 3481. Headquarters of No. 2 district at Fullerton has made no totals as yet, but, taking the 1917 registration as a basis, it seems safe to say that that district will have a total of 3800 at least.

Registration was completed last night at 9 o'clock. Many of the registrars reported that most of the day and evening they had nothing to do but wait. It took but two or three minutes to register a man. In the 1917 draft No. 1 district registered 2270 and No. 2 had 2450.

THOSE FROM 19 UP TO 36  
TO BE DRAFTED FIRST  
Instructions have been received by the local draft board covering the ages of men first to be drafted. Those instructions read as follows:

"Only registrants who on Sept. 12, 1918, shall have attained their 19th birthday and who shall not have attained their 37th birthday shall be called for classification and drafted for military service until further orders.

"A day will hereafter be designated by the provost marshal general when the mailing of questionnaires shall commence and instruction will then prescribe the time when questionnaires shall be mailed by local boards.

In pursuance with this order, questionnaires will be mailed by local boards during the time to be hereafter designated only to registrants of the ages hereinbefore specified. Hereafter only the third edition of the questionnaire shall be mailed or delivered registrants."

FOUR CLERKS ENTRAIN  
FROM FULLERTON

FULLERTON, Sept. 13.—Only four of the limited service men required for clerks were entrained for the Presidio yesterday afternoon, instead of eleven as first ordered by the adjutant general. The four entrained are the ones who are to be employed in the two Orange county boards. They are: Henry O. Price of La Habra, Roy D. Fordham of Fullerton, John E. Church of Los Angeles and Ronald B. Collins of Fullerton. The other men who were ordered to appear, it is expected, will be entrained within a few days.

70,751 MEN REGISTERED  
IN LOS ANGELES CITY  
LOS ANGELES, Sept. 13.—Seventy thousand, seven hundred fifty-one men registered to fight the kaiser in Los Angeles yesterday, according to figures announced today, while in the county outside of Los Angeles the total registration was 32,762.

August Swanson, 20, a laborer, was the first man arrested for failure to register. He was taken into custody here at 9:30 o'clock last night.

HARD WORKING WOMAN  
Knows from Experience that Nothing  
Equals Vinol to Create Strength  
Holmdel, N. J.—"I live on a farm and am a hard working woman and for weak, run-down, overworked conditions have found nothing that will create an appetite, build me up and make me strong equal to Vinol."

Mrs. Thomas Ellis.  
The reason we recommend Vinol for such conditions is because it is a constitutional remedy and all of its ingredients are printed on each package which will prove that it is a safe and valuable remedy to create strength for weak, run-down, overworked men, women and children. **"FATHER'S AND SON'S DAY"**

We have celebrated such a day in the past, but yesterday gave it a new and deep significance. When eighteen and forty-five stand shoulder to shoulder and heart to heart for a decent world there will be a new sympathy and understanding between fathers and sons that has too often been lacking.

Sometimes they have been strangers to each other. Father has been the stern head of the family, the disciplinarian, the seat of authority, "the policeman," if you please. Son has been the problem, the sometimes wayward, wilful and too independent junior member of the firm of Household & Co. More frequently there is an entire absence of partnership. But now they are comrades and mates in the great adventure. "The old man" will no longer be strange and unapproachable and imposing to the boy. He will be "bunkie" and "pal" and "chum." The boy will no longer be the careless, disrespectful "young America" of whom we have heard. He will loom large in the uniform as "the man" on whom Uncle Sam depends.

This will be good for both of them. Perhaps father has counted himself out of the war. His yearnings to enter the service had met with rebuff and refusal. He knew he could fight. He felt the spirit of the soldier struggling within his soul. His wife longed to see "her man" in uniform. His boy wondered if "dad" was good only for the junk pile? If he was ready for Dr. Osler and the chloroform route?

Registration day has routed all such nonsense. "Dad" is a "fighting man." Uncle Sam and the world calls for the splendid contribution of his mature manhood. His boy is saying proudly "me and dad," and it may not be long until it will be "dad and me."

Mother, too, has visions of her own importance. She is shyly accumulating patterns of garments for icemanettes and farmerettes and conductorettes and motorettes. She is just as capable as Englishwomen, who have done these things. And daughter, also, is considering uniforms for nurses and Red Cross and Y. M. C. A. service. She will soon get in the game. What a changing world it is! Uncle Sam may soon be after the whole family!

**OUT OF FRANCE BY CHRISTMAS**

Some of the military critics are soberly discussing the possibility of expelling the Germans from France before the end of the year. Two months ago such a notion would have been regarded as absolutely crazy. One month ago it would have seemed no more than an alluring but visionary hope. Today it is received by men of calm judgment as a possibility, and even a probability. One American war writer with a large following insists that it is inevitable—that the Germans cannot stop short of the Belgian and German frontier.

That is hard for most of us to believe. We have expected something of the sort to occur next year, but the most optimistic of us never, until very lately, dared hope for it before the coming winter. We hardly dare hope for it now. The war has lasted so long—there has been so much apparently futile struggling back and forth—previous gains have been so small, comparatively, and so lacking in fulfillment of their promise!

Can it be now that this is the real thing for which the world has been waiting? That the Huns are really being rolled back out of desecrated France and Belgium, on their way to the Rhine and beyond? That the Allies are on the last lap of the long, hard race? That by bending every effort to the task we ourselves may win without the gruelling effort that has exhausted our allies? That we can certainly finish the big job next year, and then come home and settle down to the pursuits of peace?

"It is dangerous to indulge in the illusions of hope," but it is no less dangerous and foolish to yield to the illusions of pessimism. Let us expect the best. That attitude in itself will help to realize the best, provided we abate nothing of our effort, but "carry on" to the height of our powers.

We shall not "get the boys out of the trenches by Christmas," but we may get the Germans out of France by Christmas. If we do, what a Christmas celebration there will be!

**MARKSMANSHIP**

astonishes our Allies and enemies alike is his rifle shooting. Never before in this war have troops, in the midst of battle, been known to stop, take careful aim and pick off their enemies, one by one.

Such conduct is inspiring to the British and French and, needless to say, demoralizing to the Germans. It is interesting, too, as proof of the vitality of an American tradition. Americans have always fought that way. Long years of peace, ending in a "war of machinery," have not broken the habit. Our fighters now shoot the Germans just as their distant predecessors shot Indians. Personal coolness and courage still tell.

**TO THE CRITICS AT HOME**

"Stars and Stripes," published by the American Expeditionary Forces in France, publishes this editorial which furnishes good food for the digestion: "There are certain patriots back home who admit that they are willing to support the army program up to a certain point, but who insist that they have a right to rise up at any moment with any criticism they may care to make."

"They began their support with a brick held in

brick fly.

"No such fifty-fifty support is wanted by the A. E. F. This is no fifty-fifty war in any sense. There is no fifty-fifty stuff in the soul of the soldier who swings out over the top under heavy fire.

"Those back home patriots who do not intend to go the whole distance with the A. E. F. with all they've got, should never start at all. They are merely clogging up the road. They may mean well enough, but they are not hooked to our kind of a war.

"There are but two kingdoms ahead—the kingdom of liberty and the kingdom of kaiserism.

"Under which king, Bezonian? Speak, or die."

**MOURNING BANDS**

One of the finest undertakings of the American Red Cross is the distribution of mourning bands to the nearest relatives of men lost in the war.

This emblem, a black band of cloth three inches wide, bearing a military star, was sanctioned some time ago. The Red Cross has now decided to provide it free of cost to the parents or wives of the fallen. Other relatives may purchase it at cost.

In case more than one man from a family has died in the service, the fact may be indicated by two or more stars, as the case may be. The distribution will be made by the chapters of the Red Cross working in conjunction with the local units of the woman's committee of the Council of National Defense. The brassards are expected to be ready about the middle of this month.

We hope that these emblems will not become too familiar a sight. Our people are reconciled, however, to any sacrifice that must be made. And how much better a token of sacrifice this is than the usual form of mourning, with its suggestion of utter grief and gloom! There is just enough black to show forth, all the brighter, the golden star which is a fit memorial to the fallen hero.

"A man's mind is like a thermos bottle," says a feminine philosopher. "Whatever a woman puts into it remains there, unchanged, forever." Well, well! When did a thermos bottle ever keep anything hot more than 24 hours? With that fact granted, the simile holds good.

It didn't do the Germans any good to name their strongest defense lines after Wotan, Siegfried, Hindenburg and other heathen divinities. They were punctured just as all the other evidences of German kultur have been.

It's getting to be considerable of a problem to know what to do with German prisoners. This herding Huns isn't what it's cracked up to be, when they begin to run up into the hundred-thousands.

The members of the missionary society had assembled to turn in their money, and to relate the difficult and amusing experiences in earning, each, her dollar.

"Sister Lamm, how did you earn your dollar?" asked the chairman.

"I got it from my husband," replied the good sister, tendering her money.

"Oh, but that is not earning it," remonstrated another sister.

"No?" asked Mrs. Lamm. "Then you don't know my husband."—Harper's Magazine.

**THE TIMID TEACHER**

"I'll be glad when I can go back to school."

"Fine. What an ambitious little boy you are, to be sure."

"That ain't it. The teacher in school is afraid to lick me, but ma isn't."—Detroit Free Press.

**Observations**

An Indiana woman has sued for divorce, charging her husband failed to take a bath from April 9 to June 9. Certainly without excuse. There were nine Saturday nights in that time.

"Crown Prince Rupprecht is back," says a cable. How far back?

After all, the Huns only ask for the freedom of the seize.

The man who said, "All's fair in war," never dreamed there'd be anything like the German army.

From all we can learn, the German morale appears to be quite low. Pretty soon they'll be trying to find a substitute

**WILL ASK NEW TRIAL FOR SOCIALIST HEAD**

CLEVELAND, O., Sept. 13.—Attorneys for Eugene V. Debs today were preparing a motion for a new trial to be filed tomorrow win federal court here.

The national Socialist leader was found guilty yesterday of making disloyal utterances. Each of three counts carries with it maximum imprisonment up to twenty years and fines up to \$10,000.

If a new trial motion is denied, Debs' attorneys said they will carry the case to the United States supreme court.

**FORMER MAYOR OF BIRMINGHAM, ALA., ENDORSES TANLAC**

"You Will Hardly Know Me When We Meet Again; for I Am Getting Well," He Writes Friend

One of the latest additions to the list of leaders of thought and action who have come forward with their unqualified endorsement of Tanlac is the name of Hon. Frank V. Evans, former Mayor of Birmingham, Ala., ex-State Examiner of Public Accounts of Alabama, and at one time editor of the South's greatest newspaper—The Birmingham Age-Herald.

Writing to a personal friend in Atlanta, Mr. Evans says:

Birmingham, Ala., Feb. 2.

"By the way, you will hardly know me when we meet again, because I am getting well and strong again. As I told you while in Atlanta last month, I have been suffering a long time with gastritis, as the doctors call it—really a disordered stomach with consequent constipation, pains in the shoulders, headache, belching, heartburn, loss of appetite, loss of sleep, and fainting spells. For weeks I could not sleep on my back.

"One week ago, upon recommendation of friends, who had tried the medicine, I purchased one bottle of Tanlac and began taking it. Since my second dose I have suffered none of these troubles to which I refer, and really believe I am going to get perfectly well and strong again. Well, that is wonderful at my age! Well, certain it is that Tanlac is a wonderful medicine, and you know I am not given to 'puffing' mere experiments and am rather orthodox as to materia medica."

"I shall continue the treatment with perfect confidence in the final results." (Signed) "FRANK V. EVANS."

Commenting on this splendid endorsement of Tanlac, G. F. Willis, International Distributor of Tanlac, said:

"Although the list of prominent endorsers is a long one, I recall a few leading names that lend both dignity and credit to the entire array. Some of them are:

"Hon. C. W. Mangum, of Atlanta, Ga., for three terms sheriff of Fulton County; Hon. Moses R. Glenn, Superintendent of Printing for the state of Kentucky; Mr. C. C. Cooper, President of the Georgia Cotton Oil Company; Mr. H. W. Hill, Bank President of South Pittsburg, Tenn.; Mr. J. P. Carroll, Cotton Mill Superintendent of Chattahoochee, Ga.; Hon. A. E. Anderson of Houston, Tex., for seven years sheriff of Harris county; Hon. S. S. Shepard, ex-city Councilman of Atlanta, and many others whose names have heretofore been given to the public."

Tanlac is sold in Santa Ana by Rowley Drug Co., in Fullerton by G. W. Finch, in La Habra by R. H. Hilbert, in Huntington Beach by Riddick's Pharmacy, in Orange by Dittmer's Mission Pharmacy, and in Placentia by A. J. Robinson, and in Tustin by Tustin Pharmacy.—Advertisement.

## INFORMAL AFTERNOON

Mrs. Asa Vandermast Hostess Yesterday to Small Company, Do Red Cross Work

A very pleasant informal afternoon was enjoyed yesterday by a congenial company of friends at the home of Mrs. Asa Vandermast, the first she has entertained since her return from the East.

Mrs. Vandermast used roses and asters for her attractive decorations and during the afternoon busy fingers were active with Red Cross work, while jolly chat was enjoyed.

Late in the afternoon, the hostess served delectable refreshments to the following guests:

Misses Van Wyk, Schalecamp, Clayton, Walter Vandermast, C. M. Jordan, Walter Prince, Medberry and Pratt.

### For Mr. Gustlin

Mrs. Ella Campau and her mother, Mrs. George R. Smith, were hostesses yesterday at a charmingly informal dinner, honoring C. A. Gustlin. Besides the hostesses, covers were laid for Mr. and Mrs. Gustlin, Mr. and Mrs. Q. M. Dietz of Los Angeles, Mrs. C. E. Dietz and Mrs. Struber of Highland, Ill., Mrs. John Wehrly and Mrs. Addie Collins.

Following the delightful dinner, an afternoon of music and social chat was enjoyed.

## GOLDEN WEDDING

Anniversary of Marriage Mr. and Mrs. J. H. Wichmann Be Made Happy Occasion

Mr. and Mrs. J. H. Wichmann are very happy old people today, as besides being the fiftieth anniversary of their wedding day, they are surrounded by their children and their families from all over the United States and one from Mexico, who have come to felicitate their parents on this joyful occasion.

Dr. H. T. Wichmann has come from Chihuahua, Mexico; Mrs. F. J. Hans and little daughter of Chicago, Mrs. Joseph Thacker, husband and children from Phoenix, N. M., and Mrs. Charles Harper, husband and children of this city, are the children already here. Dr. Wichmann's wife, who has been summering at Glendale, is also here.

Mrs. Wichmann's only sister, Mrs. Mary Fuesz, with her daughter, is here from Hoskins, Neb., and the wife and family of another son, Dr. F. W. Wichmann, are here from Tenino, Wash. Dr. Wichmann being in the service at a camp in Massachusetts and not able to obtain a long enough furlough to make the long journey to California. Another son, who resides in Chicago, is expected.

This afternoon a family group picture was taken in Birch Park and the honored couple taken for an automobile drive.

Tomorrow the family will go to Balboa to enjoy a house party over the week-end and a delightful outing is anticipated.

### Interesting War Wedding

Lawrence H. Frye, enlisted in the navy and located at the submarine base at San Pedro, brought his charming fiancée, Miss Marie Bevis of Los Angeles, here last evening and the young people were wedded at the Spurgeon Memorial church by the pastor, Rev. A. T. O'Rear, the ceremony taking place at 9 o'clock in the presence of the immediate family. The bride was becomingly attired in a gray traveling suit.

The groom is the son of Mrs. Helen Frye of Hickey street and brother of Mrs. Lee Buck. Mr. and Mrs. Frye will go north tonight, where the bride will remain until her husband leaves San Francisco, when she will return to Los Angeles.

Enrollment Student Nurse Reserve The enrollment for student nurse reserve will close on Sept. 15, 1918. The following additional names have been added to the list previously reported:

Miss Vera McCulley, Fullerton; Miss Nancy Elder, Tustin; Miss Sybil E. Pritchett, Santa Ana.

The following from Orange county have registered in Los Angeles: Miss Grace Foley, Huntington Beach; Miss Louise Calhoun and Miss Bernice E. Cully, Santa Ana.

flowers made the rooms cheery.

Mrs. Charles Johnson sang several delightful solos, accompanied by Mrs. A. B. Gardner, and later tray refreshments of ice cream and wafers were thoroughly enjoyed.

The afternoon passed all too quickly with needlework, and several of the club members gave accounts of their pleasant vacation trips. Mrs. A. B. Gardner enjoyed a trip to Oregon and Yosemite and several points of interest; Mrs. Charles Johnson, motor trip to San Francisco; Mrs. Clarence White, auto trip to Santa Cruz and "Big Basin;" while Mrs. Will Lindsay gave a very scenic description of Newport; Mrs. Elmer Thompson journeyed to Bear valley; Mrs. J. P. Thompson and Mrs. Sherrill took a "jittery" to Long Beach. Mrs. Pendleton, Jack Miller, C. S. Hubbard and E. D. Smith have their vacations yet to look forward to.

Miss Ruth Gardner and Avery Hall were little guests of the club.

### Having Fine Trip

Willard Smith and his mother of West Fourth street, who left here Labor Day in their Ford car bound for New York city, passed safely over the Continental Divide in the Rockies (elevation 8500 feet) and camped out in Datt Canyon last Sunday. They spent Monday night at Albuquerque, New Mexico, and expect to be "somewhere in Kansas" today. They report that they are having a wonderful trip.

### Attended Speakers' Convention

Mrs. J. Dick Wilson and Mrs. A. J.

Padgham have been in attendance at the speakers' institute of the Y. W. C. A., held in Los Angeles Tuesday and Wednesday. The institute was attended by women from all parts of California.

On Thursday the speakers were taken to visit the hostess houses at Camp Kearny and Balboa park and the recreation center at San Diego, so that the speakers could see for themselves the marvelous work already accomplished.

### LOVES HER COWS AND CHICKENS AGAIN

"I have had stomach trouble for twenty years and for the past year have eaten nothing but stale bread and drank hot water. Was too weak to do any kind of work. Six weeks ago I took the first dose of Mayr's Wonderful Remedy and am now doing all my housework besides looking after my chickens and milking two cows every day. Mine has been a wonderful recovery." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. For sale by druggists everywhere.—Adv.

J. W. Walls, one of our most successful agriculturists, was in town on business Saturday. Walls owns a ranch of 84 acres northeast of town, on which he has a fine walnut grove. The walnuts are now dropping, and he says this year's crop is a good one. He is also growing lima beans, tomatoes, potatoes, alfalfa and other crops.—Anaheim Gazette.

W. S. S. —

Frank Ey was in town from Santa Ana some days ago accompanied by his son Alfred, who came down from San Francisco to visit his parents before enlisting for service in the U. S. army. Alfred is a native of this city, and will no doubt make a very fine soldier. His brother Frank is a captain in the regular army and stationed in New York.—Anaheim Gazette.

## PERSONAL MENTION

Verne Mitchell and family, consisting of his wife and three sons, are here from Ohio for the purpose of locating permanently in Santa Ana or vicinity. They are old-time friends and are now the guests of J. B. Ramsey, 1101 West Seventeenth street and come from Mr. Ramsey's "old home town," Pueblo, Ohio. They drove out in a Dodge car, and were eighteen days on the road, arriving Wednesday evening. They are delighted with Santa Ana and Orange county and will make welcome additions to our population.

Private Lee I. Brown, Battery A, 67th Artillery, has notified his relatives here of his safe arrival overseas.

Mrs. N. M. Holderman will be at home to her friends at 2121 North Broadway after September 15.

Mrs. Lottie Stafford of Los Angeles is the guest for a few days of her sister, Mrs. L. L. Shaw and family.

Miss Zelma Burge, of 822 Lacy street, has returned from an extended trip in the East.

Manager Walker and wife of the Princess theater were visitors in Los Angeles today.

Mrs. Lizzie Yetter went to Los Angeles this morning for a few days' visit.

Dr. J. G. Kennedy was a morning passenger to Los Angeles.

Mrs. D. B. Horton has returned from a two weeks' visit north, spending ten days at the Sacramento state fair and visiting her husband, who is employed at Bakersfield.

Miss Mary Grim of Anaheim, will teach in the Central Intermediate schools at Los Angeles this term.

Judge E. T. Langley has returned from his trip to Portland and Forest Grove, Ore., much improved in health.

## NEWS IN BRIEF FORM

Mrs. H. M. Sammis, in reading the casualty list in Tuesday's Register, saw the name of her cousin, Lieut. Karl McComb of Napoleon, Ohio., who was reported killed in action.

Mrs. F. E. Sammis of San Diego has returned to her home after a six weeks' visit at the home of her son, H. M. Sammis.

The Fullerton city brass band is arranging to give a series of Saturday evening concerts in that city, commencing probably on Saturday evening of next week. It is intended to give six concerts. The concerts will be given somewhere near the business section.

All who ever lived in the state of Michigan may meet for an all-day picnic reunion in Sycamore Grove, Los Angeles, Saturday, September 21.

"Hewes Park" brand oranges, packed by the David Hewes Packing Company, and marketed through the Orange County Fruit Exchange, topped the New York auction market yesterday, bringing a price of \$10.50 per box. The shipment represented some of the best local Valencia's, which have been making a good showing on eastern markets regularly. "Alphabetical" brand, packed by the Villa Park Orchards Company, topped the market Wednesday.

R. S. Farley today received word that his brother, Assistant Adjutant Ralph Farley, with the Canadian forces, had been wounded by a gun shell and is now in London. Adjutant Farley left Canada two years ago and has been on the front for some months.

Dr. F. H. Thibault of Placentia received a letter last week informing him that he had been recommended for a commission in the Medical Corps. Right on the heels of the letter came a telegram announcing his appointment as captain and ordering him to report at Fort Oglethorpe, Georgia.

A. Mathes of Placentia has traded some Los Angeles property for five acres of Valencia's on Orangehorpe avenue, west of Fullerton. He will move to the place in the near future but will drive back and forth to his business in Placentia until he sells it.

The cannery at Placentia was a little late in starting on tomatoes this season, as the fruit has ripened slowly, but it is running as smoothly as clockwork. The new machinery not only expedites the work but makes it much more pleasant for the workers. The fruit, too, is unusually fine, and a good run is anticipated. Only about twenty people are now employed, but a full crew will be required within a week or ten days.

The Long Beach police departments have notified local officers that they have in custody two girls who claim to live in this city. They are Gladys Wheeler, 16 years old, who gave her address as 116 East Santa Clara avenue, and Mabel Yorba, 19 years old, of 443 Forest street. The girls had not been reported to the local police as missing.

Changes in the front of the second story of the Ford garage are being made to adapt the rooms to use as business offices. A building permit issued this morning gives Dr. C. D. Ball as the owner and Chris McNeill as the contractor. The alterations are to cost \$500.

With A. C. Black as contractor, Judge John B. Cox is having a sleeping room added to his residence at 1628 Bush to cost \$300.

Men's Suits Twenty-Five Dollars

—These Men's Suits are unusual quality.  
—Not the cheapest that we could buy  
—But the best. Our objective in  
—Men's Suits is not merely the fairly  
—Good  
—But the  
—Superior Suits that are  
—Above the commonplace  
—and out of the ordinary in  
—Appearance and in  
—Fact. We have many  
—Less than \$25.00. And they are  
—Good Suits, but these are the  
—Better Suits. The Fabrics are  
—All Wool and they will wear. They are  
—Hand Tailored and finished with all the  
—Refining touches that mark the  
—Exceptional everywhere. The  
—Patterns are quiet, dignified, dressy—the kind that you  
—Do not get tired of and the  
—Price exceptionally for  
—Wardrobe  
—Suits for Men.

—Twenty-five dollars for the kind of a suit you really want is better than a compromise at a smaller price for something that you never will be satisfied with, and you always will be satisfied with the Wardrobe suit.

S. P. CLOSES TO PEOPLE OF SOUTH SMALL FREIGHT AFTER NEXT SUNDAY

Santa Fe Will Handle All Less Than Car Lot Shipments

Closing of the Southern Pacific depots in Santa Ana and West Orange and the Santa Fe depot at Anaheim is expected to be the final result of orders effective on these lines next Sunday, September 15. On that day the depots named will cease to receive freight under carload lots. Carload shipments originating at and consigned to these points will be received as usual, for the present, with the possible exception of the West Orange depot of the Southern Pacific. All shipments of less than carload lots will be shipped and received only by the Santa Fe in this city and the Southern Pacific at Anaheim. Santa Ana will be the only point in the county on steam lines where daily shipments may be made and received. Other points may ship and receive only on Mondays, Wednesdays and Fridays. The Pacific Electric does not come within the scope of the new regulations.

The new regulations under federal control of the railroads affects all of Southern California and is the result of conferences and co-operation of the Associated Jobbers of Los Angeles with the federal road management in Los Angeles. Conservation of railroad equipment and men is one of the objects. The plan involves the consolidation of service to avoid unnecessary duplication at common points, and provides for the receipt and forwarding of less than carload lot freight to points having a limited volume of traffic on certain days only. Competition has been eliminated. It is estimated that the change will release between 300 and 400 freight cars monthly that are now used in duplicating territory in the Los Angeles division—instead of the two lines sending out one car each half filled with small freight, one car on one line will carry the freight of the two.

This is the first step in plans to eventually consolidate all the lines and eliminate wasted effort by duplicating lines. Further plans are being worked out and in the near future, possibly by the first of October, the Southern Pacific depot in this city and the Santa Fe at Anaheim may be closed permanently, or until after the war, at least.

Will Release One Man

The regulations effective next Sunday will release the warehouseman at the Southern Pacific depot. That position is now held by T. M. Jones. He will be taken into the local office for a time, for the office force is short. Transference of the small shipments to the Santa Fe probably will require an additional man at that station.

In case of the permanent closing of the Southern Pacific, it is probable that F. T. Smith, present Santa Fe agent, will continue as agent. While no definite policy of taking care of agents of the two companies located at the same place has not yet been definitely announced, it is the opinion of railroad men that the agent who has been the longest in the employ of either of the lines will be retained in cities where one depot is closed.

For the guidance of local small freight shippers, the following schedule, as issued, is printed, the shipping point here having reference to Los Angeles: Points, San Bernardino to Barstow, Santa Fe.

On Southern Pacific

As at present, all freight for points north of Mojave must be delivered to the Southern Pacific.

Will receive freight daily for Bakersfield, Fresno, San Francisco.

For all other points north of Saugus, freight will be received only on Tuesdays, Thursdays and Saturdays.

Southern Pacific—Coast Line

Will receive freight daily for Fillmore, Santa Paula, Oxnard, Ventura, Santa Barbara, San Francisco.

For all other points on the Coast Line on Mondays, Wednesdays and Fridays.

For points east and south of Los Angeles, will receive freight daily for El Centro, Calexico.

For all other points on Mondays, Wednesdays and Fridays.

On Santa Fe

Will receive freight daily for Pasadena, San Bernardino, Redlands, Blythe, Phoenix, Santa Ana, Camp Kearny, San Diego.

For all other points east of San Bernardino and Mojave, not inclusive, on Tuesdays, Thursdays and Saturdays.

For points San Bernardino, Highland and Redlands loop, on Mondays, Wednesdays and Fridays.

For all points west and south of San Bernardino, Elsinore, Perris, Temecula, San Jacinto, on Mondays, Wednesdays and Fridays.

It is to be understood that shipments will be received only on forwarding days.

In addition to forwarding days above specified, there will be special days, as at present, for perishables, explosives, etc., which will be explained by circular of the federal control roads.

Steamer freight in connection with coastwise vessels continue to handle in connection with Pacific Electric railway.

Tacit Understanding Suggested to Freeze Out Germans After the War

BY ROBERT J. BENDER (United Press Staff Correspondent) WASHINGTON, Sept. 13.—Suggestion for a "tacit understanding" between the commercial interests of the United States and Great Britain in South America to "prevent German commercial domination" and a rivalry which might prove detrimental to the allied powers is offered in an interview by Sir Maurice de Bunsen with the United Press.

Sir Maurice has just completed a long trip through South American countries as head of a British commercial mission and formerly was ambassador to Vienna.

His discussion of the trade subject is regarded as timely because of similarity of interests of Americans and British men in South America.

"Travelling through every South American country," said Sir Maurice, "I found the people growing more strongly in favor of the cause of the allies. We naturally expected strong sympathy in Brazil because that country is actively engaged on our side, but we were agreeably surprised to find wars feelings toward us no less in Brazil than in Argentina, Uruguay and many other South American countries."

"While the governments of the various republics in South America are still maintaining strict neutrality and are timid about going to war, public opinion there is becoming so favorable to the allied cause that I hope to see them all take up the fight against Germany."

Germany's trade organization in South America has been almost entirely knocked out. German banks are still open in certain South American countries but they are doing no business.

"Forced to cut off exports at the opening of the war, Germany has been unable to send into South America the vast quantities of small manufactured goods which forced the bulk of her trade. She is undoubtedly preparing to resume her operations there after the war."

"But it is entirely possible for the allies, particularly Great Britain

No. 8985, Dept. 2  
ORDER TO SHOW CAUSE

In the Superior Court of the County of Orange, State of California.

In the matter of the estate of R. M. Hargrave, deceased.

Orange County Trust and Savings Bank, a corporation, the duly appointed, qualified and acting executor of the estate and last will and testament of R. M. Hargrave, deceased, having this day presented its duly verified petition, asking for an order of this court to sell certain real and personal property belonging to the estate, particularly described and set forth in said petition, and it appearing to the court from such verified petition that it is necessary to sell the said real and personal property for the payment of debts outstanding against the deceased, estimated charges and costs of administration, and legacies provided for in the will of deceased, all as set forth in said verified petition.

The real and personal property sought to be sold is set forth herein.

It is therefore ordered by the court that said verified petition be filed, and all persons interested in the estate of said deceased are directed to and do appear before this court at the court room of Department 2 thereof, in the Court House at the city of Santa Ana, County of Orange, California, at the hour of ten o'clock in the forenoon of Friday, the 20th day of September, 1918, the same being not less than four nor more than ten weeks from the time of filing said petition and the making of this order, and then and there to show cause if any they have, why an order of this court should not be granted to the said executor for the sale of the real and personal property belonging to the estate of R. M. Hargrave, deceased, at either public or private sale for the purposes mentioned in the petition of the executor as the said executor shall adjudge to be for the best interest of the estate and of those interested therein, as prayed for in the said verified petition.

The property sought to be sold and described in the said petition is as follows:

Household fixtures, fittings and furnishings.

It is further ordered that a copy of this Order to show cause be published in the SANTA ANA DAILY EVENING REGISTER, a daily newspaper printed and published in the city of Santa Ana, County of Orange, California, for four successive weeks, and the court hereby orders that said publication shall be made by one publication each week in said newspaper during the said period.

Dated August 16th, 1918.

W. H. THOMAS,  
Judge of the Superior Court.

## ORDER TO SHOW CAUSE

In the Superior Court of the County of Orange, State of California.

No. 8991, Dept. 2

In the matter of the estate of D. W. Spradlin, deceased.

Nora C. Spradlin, Administratrix of the estate of D. W. Spradlin, deceased, having this day presented to the court her verified petition in due form of law praying for an order of the court for the sale of certain real property belonging to the above deceased.

It is ordered that the petition be filed, and it appearing therefrom to the court that it is necessary to sell the said real property of said estate for the purpose of paying charges, costs of administration, accrued and to hereafter accrue, and the debts existing against the estate of deceased, and it also and further appearing from said petition that it is and will be for the advantage, benefit and best interest of the estate and those interested therein to sell the said real estate:

It is therefore hereby ordered by the court that all persons interested in the estate of said deceased appear before this court in the court room of Dept. 2 thereof, at the Court House in the city of Santa Ana, County of Orange, California, at the hour of ten o'clock in the forenoon of Friday, the 11th day of October, 1918, then and there to show cause, if any they have, why an order should not be granted to said administratrix to sell the said real estate:

And that a copy of this order be published for four successive weeks in Santa Ana Daily Evening Register, a newspaper of general circulation printed and published in the County of Orange, California. The publications of this order shall be once each week.

The following is a description of the real property hereinbefore referred to and which is sought to be sold under said petition:

## Men's Suits Twenty-Five Dollars

—These Men's Suits are unusual quality.  
—Not the cheapest that we could buy  
—But the best. Our objective in  
—Men's Suits is not merely the fairly  
—Good  
—But the  
—Superior Suits that are  
—Above the commonplace  
—and out of the ordinary in  
—Appearance and in  
—Fact. We have many many suits for  
—Less than \$25.00. And they are  
—Good Suits, but these are the  
—Better Suits. The Fabrics are  
—All Wool and they will wear. They are  
—Hand Tailored and finished with all the  
—Refining touches that mark the  
—Exceptional everywhere.  
—The  
—Patterns are quiet, dignified, dressy—the kind that you  
—Do not get tired of and the  
—Price exceptionally for  
—Wardrobe  
—Suits for Men.

—Twenty-five dollars for the kind of a suit you really want is better than a compromise at a smaller price for something that you never will be satisfied with, and you always will be satisfied with the Wardrobe suit.

## S. P. CLOSES TO SMALL FREIGHT AFTER NEXT SUNDAY

### Santa Fe Will Handle All Less Than Car Lot Shipments

Closing of the Southern Pacific depots in Santa Ana and West Orange and the Santa Fe depot at Anaheim is expected to be the final result of orders effective on these lines next Sunday, September 15. On that day the depots named will cease to receive freight under carload lots. Carload shipments originating at and consigned to these points will be received as usual, for the present, with the possible exception of the West Orange depot of the Southern Pacific. All shipments of less than carload lots will be shipped and received only by the Santa Fe in this city and the Southern Pacific at Anaheim. Santa Ana will be the only point in the county on steam lines where daily shipments may be made and received. Other points may ship and receive only on Mondays, Wednesdays and Fridays. The Pacific Electric does not come within the scope of the new regulations.

The new regulations under federal control of the railroads affects all of Southern California and is the result of conferences and co-operation of the Associated Jobbers of Los Angeles with the federal road management in Los Angeles. Conservation of railroad equipment and men is one of the objects. The plan involves the consolidation of service to avoid unnecessary duplication at common points, and provides for the receipt and forwarding of less than carload lot freight to points having a limited volume of traffic on certain days only. Competition has been eliminated. It is estimated that the change will release between 300 and 400 freight cars monthly that are now used in duplicating territory in the Los Angeles division.

Instead of the two lines sending out one car each half filled with small freight, one car on one line will carry the freight of the two.

This is the first step in plans to eventually consolidate all the lines and eliminate wasted effort by duplicating lines. Further plans are being worked out and in the near future, possibly by the first of October, the Southern Pacific depot in this city and the Santa Fe at Anaheim may be closed permanently, or until after the war, at least.

Will Release One Man  
The regulations effective next Sunday will release the warehouseman at the Southern Pacific depot. That position is now held by T. M. Jones. He will be taken into the local office for a time, for the office force is short. Transference of the small shipments to the Santa Fe probably will require an additional man at that station.

In case of the permanent closing of the Southern Pacific, it is probable that F. T. Smith, present Santa Fe agent, will continue as agent. While no definite policy of taking care of agents of the two companies located at the same place has not yet been definitely announced, it is the opinion of railroad men that the agent who has been the longest in the employ of either of the lines will be retained in cities where one depot is closed.

For the guidance of local small freight shippers, the following schedule, as issued, is printed, the shipping point here having reference to Los Angeles: Points, San Bernardino to Barstow, Santa Fe.  
On Southern Pacific  
As at present, all freight for points north of Mojave must be delivered to the Southern Pacific.  
Will receive freight daily for Bakersfield, Fresno, San Francisco.  
For all other points north of Saugus, freight will be received only on Tuesdays, Thursdays and Saturdays.  
Southern Pacific—Coast Line  
Will receive freight daily for Fillmore, Santa Paula, Oxnard, Ventura, Santa Barbara, San Francisco.  
For all other points on the Coast Line on Mondays, Wednesdays and Fridays.  
For points east and south of Los Angeles will receive freight daily for El Centro, Calexico.  
For all other points on Mondays, Wednesdays and Fridays.  
On Santa Fe  
Will receive freight daily for Pasadena, San Bernardino, Redlands, Blythe, Phoenix, Santa Ana, Camp Kearny, San Diego.  
For all other points east of San Bernardino and Mojave, not inclusive, on Tuesdays, Thursdays and Saturdays.  
For points San Bernardino, Highlands and Redlands road, on Mondays, Wednesdays and Fridays.  
For all points west and south of San Bernardino, Elsinore, Perris, Temecula, San Jacinto, on Mondays, Wednesdays and Fridays.  
It is to be understood that shipments will be received only on forwarding days.

In addition to forwarding days above specified, there will be special days, as at present, for perishables, explosives, oil, etc., which will be explained by circular of the federal control roads.

Steamer freight in connection with coastwise vessels continue to handle in connection with Pacific Electric railway.

## PEOPLE OF SOUTH AMERICA ARE IN SYMPATHY WITH ALLIED CAUSE

### Tacit Understanding Suggested to Freeze Out Germans After the War

BY ROBERT J. BENDER  
(United Press Staff Correspondent)  
WASHINGTON, Sept. 13.—Suggestion for a "tacit understanding" between the commercial interests of the United States and Great Britain in South America to "prevent German commercial domination" and a rivalry which might prove detrimental to the allied powers is offered in an interview by Sir Maurice de Bunsen with the United Press.

Sir Maurice has just completed a long trip through South American countries as head of a British commercial mission and formerly was ambassador to Vienna.

His discussion of the trade subject is regarded as timely because of similarity of interests of Americans and British men in South America.

"Travelling through every South American country," said Sir Maurice, "I found the people growing more strongly in favor of the cause of the allies. We naturally expected strong sympathy in Brazil because that country is actively engaged on our side, but we were agreeably surprised to find wars feeling toward us no less in Brazil but in Argentina, Uruguay and many other South American countries.

"While the governments of the various republics in South America are still maintaining strict neutrality and are timid about going to war, public opinion there is becoming so favorable to the allied cause that I hope to see them all take up the fight against Germany."

Germany's trade organization in South America has been almost entirely knocked out. German banks are still open in certain South American countries but they are doing no business.

"Forced to cut off exports at the opening of the war, Germany has been unable to send into South America the vast quantities of small manufactured goods which forced the bulk of her trade. She is undoubtedly preparing to resume her operations there after the war."

"But it is entirely possible for the allies, particularly Great Britain and America, to work harmoniously in South America and prevent German commercial domination. I expect to see a tacit working understanding between the American and British interests there which will prevent any rivalry detrimental to either nation and one which will permit both countries to develop their interests in harmony. While a formal agreement to this end may not be made I believe that the tie will be just as strong even though it is not written and acknowledged in the usual manner."

"During my visit to South America I found complete harmony between representatives of both British and American trades in this and I believe we are well agreed in that large and still undeveloped country. British capital has been chiefly put into railroad construction. Americans have gone in heavily for mining. In other activities I expect to see great progress after the war."

"With a continuance of good feeling between Britain and America there is no reason why Germany cannot be decisively beaten in any fight for trade supremacy she may attempt in South America."

"Close study of the needs of the various countries is essential if we are to carry out this program. We have been inclined to lump British and American interests together and think of republics being alike. I found, however, they are very different indeed and that each has its personality. I have learned a great deal about their varied needs in the time I have learned a great deal about their varied needs in the time I have been visiting them and I believe this knowledge will help us materially in doing our share in South America's development."

Sir Maurice already has had one important conference with Secretary of State Lansing since he returned from South America and will advise with other officials while here.

### "PERALTA HILLS"

ORANGE AND LEMON GROVES  
In Orange county's famous citrus belt, offer the homeseeker and investor an opportunity of acquiring, at the lowest figure, property which will rapidly increase in value. Peralta Hills groves are selling for less than they should and must advance in price soon. This increase is normal and will be continuous with every year of growth. It is based on the increase in production of the trees from year to year, and is as sure as time itself.  
"Peralta Hills" groves are delightfully located in a positively frostless section, have deep, rich soil, an abundance of water and are set out to Valencia and Eureka lemons, the most profitable combination in Orange county, the richest county in the world.

## No. 8895, Dept. 2 ORDER TO SHOW CAUSE

In the Superior Court of the County of Orange, State of California.

In the matter of the estate of R. M. Hargrave, deceased.

Orange County Trust and Savings Bank, a corporation, the duly appointed, qualified and acting executor of the estate and last will and testament of R. M. Hargrave, deceased, having this day presented its duly verified petition, asking for an order of this court to sell certain real and personal property belonging to the estate, particularly described and set forth in said petition, and it appearing to the court from such verified petition that it is necessary to sell the said real and personal property for the payment of debts outstanding against the deceased, estimated charges and costs of administration, and legacies provided for in the will of deceased, all as set forth in said verified petition.

The real and personal property sought to be sold is set forth herein.

It is therefore ordered by the court that said verified petition be filed, and all persons interested in the estate of said deceased are directed to and do appear before this court at the Court House in the County of Orange, State of California, at the hour of ten o'clock in the forenoon of Friday, the 20th day of September, 1918, the same being not less than four nor more than ten weeks from the time of filing said petition and the making of this order, and then and there to show cause, if any they have, why an order of this court should not be granted to the said executor for the sale of the real and personal property belonging to the estate of R. M. Hargrave, deceased, at either public or private sale for the purposes mentioned in the petition of the executor as the said executor shall adjudge to be for the best interest of the estate and of those interested therein, as prayed for in the said verified petition.

## FREAK TIDE HITS BEACH, DOING DAMAGE

One Life Lost at Long Beach,  
Property Damage at  
Newport

Loss of at least one life and considerable damage at points all along the coast from San Pedro to Balboa resulted from the freak tide and currents that swept the coast yesterday. Rutherford Van Horn Moody, a shipyard worker at Long Beach and an expert swimmer, lost his life when he ventured out in the raging waters at Long Beach. J. C. Brockman, a railroad fireman on the Salt Lake, had a narrow escape from drowning at Brighton Beach, near San Pedro. At Balboa, Ed Provost and companions attempted to go over the bar and their boat was capsized when the motor went dead. They were rescued by Wm. Shafer, who was a short distance behind them in "The Virginia."

Main street and other streets in Balboa were flooded, as were some of the cottages on the front. From the railroad wharf east to the end of the sand spit the waves pounded hard and did some damage to the sidewalk. The vacant lots near the school house between Newport and Balboa were flooded and some campers who were camped there had their effects damped, but no serious damage resulted. Everything is serene today. No damage was done at Huntington Beach.

Beginning Thursday morning with a booming and thundering, as if giving warning of what was to follow, immense breakers pounded the coast during the entire day and did considerable damage at several points, East Newport seemingly receiving the brunt of the onslaught.

According to the tide gauges put out by the Tuft-Lyon Arms Company, there was only a 3.3 tide at 1:50 a. m., which dropped to 2.3 at 5:13 a. m., and at 2:43 p. m. was high at 5.1 and a low tide of 1.6 at 9:20 p. m., but according to the way the breakers ran, there was but very little difference in the tide throughout the day.

Swells Break Over  
While the large swells were breaking over the sidewalks at times at Newport, there was no damage done there, but at the Seaside Apartments, 15th street, East Newport and Balboa, and east of Main street, the water came over the top and ran down the streets, carrying a considerable amount of loose debris. The campers at 15th street received a bad ducking, and in some instances their tents, bedding and provisions were washed away. The south side of Central avenue, between Newport and East Newport, was partly under water and considerable sand was washed over the surface, causing all traffic to take the road north of the Pacific Electric tracks.

At East Newport a portion of the new board sidewalk was undermined. It was reported that about sixty feet at East Newport was either torn loose from the piling or the entire walk with piling loosened and raised by one of the extra large swells which buffeted the beach at about half-hour intervals. The walk settled back again as soon as the strength of the breaker was spent, so that those watching the action of the swells were unable to determine the damage.

At Balboa the water was running over the beach and down Main street, but all the damage done was the washing away of the sand under the walk near the pier.

The cement walk between Newport and the school house was undermined in places, but as this was partly washed out two years ago, the damage will not amount to a great deal.

The jetty stood the strain very well, and as far as can be seen it has not been damaged at all. Ed Provost made an effort to get out over the bar in this morning's storm power launch, but was struck by a large comb and overturned with his two other companions.

Struck Broadside, Boat Overturns  
They were rescued by William Shafer, who was a short distance behind them with his fishing launch, "The Virginia." Mr. Provost started out on a fishing trip and his engine "went dead" just as he was going out, and before he could get control of the launch she was struck broadside and overturned. The boat was towed into port uninjured except for the damage done by the water.

Most of the campers at 15th street had left, but a few were caught by the storm and their camps were a sorry-looking mess. Boxes, tents, bedding and provisions littered the ground around the school house and loose driftwood and other material was washed onto the Pacific Electric right-of-way. Car service was not interrupted, with the exception of a few minutes' stop at 15th street to shovel a small amount of sand off the tracks.

The freak storm did considerable damage to the property east of Main street, Balboa, and a number of houses were in danger of being undermined. The new board sidewalk sustained some damage, a number of feet being lifted from the piling by one of the huge breakers, and several of the string of lights were put out of commission. It has been reported that the De Oro Villa Apartments, owned by Ora Culp Kelly, have been badly damaged by the storm.

heard down the coast, and later in the forenoon they came racing in with ever-increasing strength.

## Washed On Shore

Waves were rolling heavy at Laguna and Arch Beaches, C. S. Crookshank stated that at a point between the two beaches a two-year-old child was caught by a wave and taken out. The third wave seemed to carry the child still farther out, but the fourth wave caught the helpless youngster, carried the child in and threw her well up on the sand.

## ONE MAN BELIEVED DROWNED; HOUSES ARE DAMAGED

Freak Storm Causes Loss at  
Southern Beaches; Long  
Beach Man Missing

LOS ANGELES, Sept. 13.—One man was dead and considerable damage had been done at Long Beach, Balboa, Terminal Island, Newport and other beaches today as a result of a freak storm and tide which swept along that portion of the coast late yesterday.

Rutherford Van Dorn Moody of Long Beach was believed to have been drowned. Life guards had difficulty in rescuing many bathers who were caught in a sudden sweep of giant combers. The Pike and Walk of a Thousand Lights were flooded, and for a time it was feared the Pine street pier would be carried away. It was slightly damaged.

At Balboa porches were swept from homes, and at both Balboa and Newport the pleasure piers were damaged.

No wind accompanied the storm, which was believed to have resulted from a heavy disturbance far out at sea.

During the night rain fell for a short time in Los Angeles—the fog end of the storm sweeping the northern part of the state.

## HERE BOOSTING H. B. FALL FAIR TO BE HELD OCT. 1-5

Santa Ana Invited to Participate In Festivities at  
Huntington Beach

Inviting Santa Ana to "come over" and help them celebrate, a party of Huntington Beach folk were here today boosting for the Huntington Beach Fall Fair to be held October 1-5. In the party were L. A. Copeland, R. L. Obarr and R. C. Turner of the general fair committee, and Mrs. H. L. Heffner, chairman of the beach Red Cross society.

They report a constantly increasing list of attractions arranged for. Their efforts to get a military band promise to be successful, said the visitors, and Governor Stephens hopes to be able to be present. A flock of war planes, either from Riverside field or San Diego have been promised.

Friday, October 4, will be especially attractive to Santa Anans, and the fair committee has asked the Santa Ana Chamber of Commerce to take charge of the evening's program, with band or other music. The local Red Cross is invited to participate in the doings of Red Cross Day on Saturday, October 5.

A number of good speakers have promised to give addresses and all in all the committee in charge feels confident this year's affair will be unusually attractive and will set a new attendance record.

A detailed program is now being prepared and will be published later.

## CARNIVAL SEAL BEACH TO BE BIG EVENT

Fine Program of Athletic  
Events Being Arranged  
For Benefit

Bigger and better grows the projected two-day athletic carnival at Seal Beach, Saturday and Sunday, September 21-22, as the plans mature. Vance Vieth, L. A. A. C. athletic instructor, will bring his famous team of swimmers and divers, including Aileen Allen, national champion high diver; Norah Moore, the world's youngest life saver, will give an exhibition; Grayce Berkeley and Myrtle Humbert will also appear. Cameron Coffee, the boy champion; Clyde Swenson, the junior national diving champion, Kenneth Carraher, the Southern California backstroke champion, and Bert Craig, the Coast medley swimming champion, are among the male swimmers entered.

Entries for the boxing competition, and other contests are coming in rapidly, and some pleasant surprises are in store.

The U. S. Submarine Base band of thirty-five pieces, which has made a most enviable reputation for itself in a short time, will furnish music.

The entire carnival is for the benefit of the Submarine Base athletic fund, and the Seal Beach Athletic Association, soldiers and sailors will be admitted free. All the events will be given on the ocean front (excepting the boxing exhibitions at night) where all may see and hear.

## PERSONAL AND SOCIAL NEWS NOTES FROM ORANGE CITY

ORANGE, Sept. 13.—George Leichtfuss, Orange boy with Pershing in France, is now engaged as instructor of wireless telegraphy. Leichtfuss was wounded May 1 at Cantigny, when a shell burst through the roof of a dugout, killing five out of the seven men within and wounding the other two.

Suffering from shell shock, Leichtfuss spent some time in a Paris hospital. When he recovered sufficiently he went to work driving officers' cars behind the lines. Then for a time drove an ambulance. Recently he was placed in charge of classes in wireless telegraphy. Before he entered the service he was telegraph operator for the Santa Fe, and when he went to France was attached to the signal corps.

Ruth Seavey and Mildred Oakes celebrated their tenth birthday anniversaries with a lawn party at the C. A. Mitchell residence on East Chapman avenue.

A jolly evening was spent playing games. A delicious collation, consisting of sandwiches, pickles, two large birthday cakes and fruit punch, was served on the lawn under a large pine tree.

The guests were Doris Raymond, Edna Baumgardner, Mabel Baumgardner, Madeline Seavey, Helen Seavey, Eva Seavey, Theodore Seavey, Raymond Collins, Ross Collins, Maggie Mitchell, Anna Oakes and "Grandma" Seavey. The guests of honor received many pretty and useful gifts.

## CUBS EACH GET \$574 AS WORLD SERIES COIN

CHICAGO, Sept. 13.—Members of the Chicago Cubs will not get round shouldered from carrying their end of the World Series money. Instead, the customary wad, each got \$574.62, the loser's end.

Manager Mitchell doled out the money here today.

The Cubs shared with six men who did not take part in the series. They set aside \$1000, Trainer Brady's \$300 and the rest being split between Alexander, Kilduff, Daly, Elliott and Aldridge, now in the army.

## BOOSTERS WILL BE RECOGNIZED BY PATRIOTIC BUTTON

Chamber of Commerce Membership Drive Is Tuesday Next

"I am, are you?" If you want to be in the "swim" and listed among those who are recognized as boosters for Santa Ana, you will have to wear a button bearing these words after next Tuesday. The button indicates membership in the Santa Ana Chamber of Commerce. The big drive to double the membership of the boost organization will be made next Tuesday, with a follow-up campaign on the day following. Committees of active business men are being lined up for the assault on the trenches of non-supporters of the chamber. It is "an over the top" movement, and the workers will not be satisfied with anything less than an increase of 200 members. It will take more than this to double the membership, but 200 has been placed as the minimum number which will satisfy.

The chamber is a boost organization—it is and has been one of the potent factors in the advancement of the city. Every man owning property within the city or adjoining the city limits has profited by the operation of the organization, and they should help to bear its burdens and assist in financing it for bigger and better promotion work during the reconstruction period following the war. Now is the time to make plans and prepare for that period.

Letters were mailed yesterday to members asking their co-operation in the drive and requesting that each secure at least two new members and send in the names of two more individuals whom they believe should become identified with the chamber. Responses were quick and already several new names have been added through the efforts of members who have received the letter.

Charles L. Davis, local Chandler and Oakland agent, was the first member to respond to the letter. Fifteen minutes after receiving his letter he reported to Secretary Metzgar with the application of a new member.

Neal Beisel, of Brydon Bros., reported by opening this morning with three new members signed up and paid two months in advance. The dues are 50 cents per month.

"I'll save the committee some work," remarked Professor F. J. Haynes as he dropped into the office of J. C. Metzgar and asked for application cards.

If every member of the chamber would take the interest to secure one new member, the campaign would be over quick and would result in doubling the membership.

A membership of 1000—and the chamber could get that number easily if every resident of the city would take the interest he should—would make the organization more effective in advancing the city.

As soon after the membership drive as is feasible, the Santa Ana Chamber of Commerce will compile a classified business directory of the membership. Copies of the directory will be widely distributed and will be of value to the majority of the members. This will include members only and the plan now is to have it revised from time to time to give the membership every possible advantage. All members should see that they are correctly listed and if their friends are not listed have them enroll so as to have their names printed in the directory.

C. E. Huddleston of the Home Oil Supply Company, reported this morning with two new members.

## OPPOSITION BOBS UP IN SENATE TO THE EXEMPTION BILL

BY L. C. MARTIN  
(United Press Staff Correspondent)

WASHINGTON, Sept. 13.—Fostered by fear of creating in the United States a bond-holding class, opposition is breaking in the Senate to the bill Secretary McAdoo has asked Congress to pass, exempting from taxation the interest on Liberty bonds.

While the House is expected to pass the measure quickly and with scarcely any opposition it may be tied up in the Senate as to cause buyers of bonds in the Fourth Liberty Loan some uncertainty as to whether the interest on the bonds will be taxed or not.

The measure is designed to help bond sales. But opposing senators pointed out today that it would not affect the hundreds of thousands of Americans who buy one or two bonds. It is an inducement to the man of means, to whom the Government looks for large bond purchases.

While no senator wants to impede or hurt the Liberty loan, some believe the exemption bill is not necessary to insure success of the loan. They declare it gives the rich a chance to stock up on tax-free securities while the workers must pay tax to pay the interest on the bonds.

Allied military successes and the general feeling that the war is going well and by putting forth maximum efforts now, America can bring victory, will be enough to make the loan a success, these senators assert.

The House took up the bond bill with the expectation of passing it today.

The report of the House Ways and Means committee in favor of the measure was unanimous and urged the passage as an aid to the success of the coming Liberty Loan campaign.

### Letter to Salesmen

Chairman Bisby has sent to bond salesmen a letter that emphasizes the spirit of patriotism that is going to put the Fourth Liberty Loan across. The letter reads as follows:

"For the last six weeks the organization for the sale of the Fourth Liberty Loan has been slowly but surely getting ready for the big drive that will start on Saturday, September 28.

"The Government has drafted the men between the ages of 18 and 45, and by the time you will receive this letter they will be inducted into the service. The Liberty Loan organization of Orange county has drafted you into the service, and expects you to help put this loan 'over the top' in Orange county, just as the officers in the fighting line in France expects their men to go 'over the top'.

"Every waking moment of your time should be given to a close study of the most successful manner in which you can help with this loan. No opportunity should be lost to tell everyone with whom you come in contact, of the necessity of buying these bonds.

"We are giving our men and we are giving them freely; we must give our money; we must give our time, in order that these men may have the greatest percentage of a chance to return to us.

"I am pleased to inform you that the State committee has told me that there will be plenty of buttons to supply all the bond buyers during the drive, and it has been decided that the badge of a bond salesman shall be the button that he secures after he has bought his bond. It is the one inevitable rule in business that when you have bought a piece of goods right you can sell it right.

"Remember that you are the connecting rod between the electric current of business and the high-powered tension wire at the Treasury Department which supplies the soldier on the battlefield with the things that are necessary to win the war.

"Study the papers carefully, be well posted so that the least time may be consumed in making your sales.

"Yours for no Peace without Victory,

"R. L. BISBY,  
Chairman of the Orange County Liberty Loan Committee."

## SHOT THREE BEARS ON HUNTING TRIP BACK IN IDAHO

TALBERT, Sept. 12.—A. L. Vincent returned the past week from a trip to his home at Grangeville, Idaho county, Idaho, where he visited his mother and other relatives, having left here July 16th. It is six years since he was at home last and he describes the trip and visit as a delightful one. One month of the time was spent on a camping trip while fishing and hunting big game in the high mountain range. Three bears, a grown one and two cubs, were a part of Vincent's "kill" while on the trip, and as a trophy he has with him one of the cub's fine skins, the fur a beautiful jet black. Another memento of the trip which he shipped through was an unusually large pair of elk horns which he intends having mounted. He found the horns thirteen years ago in the forest reserve of which he was a fire rider, the animal having been killed by poachers and the horns discarded. He drew them into the top of a large tree for safe keeping until such a time as it was possible for him to take them home and they remained there ever since. His mountain trip took him near that point and curiosity led him to see if they were still there, so on discovering them as intact as the day he put them there, he crated them and shipped them here.

Crop conditions in Idaho and en route from here to his destination were not of the best in many sections, Vincent states. The grain crops are mostly light for lack of rain but are better this side of the Shasta range than the other. The weather was very dry while he was in Idaho and he saw several large fires in grain fields which burned up thousands of dollars worth of wheat, and in one field where it was already sacked.

### Witness Serious Accident

Mr. and Mrs. Arnold Walker and little girls, Mr. Walker's brother-in-law, Dave Irwin, of Greenville; Mr. and Mrs. J. C. Morton of Covington, the latter a sister of Mrs. Walker, and Mr. and Mrs. Chas. Post of Norwalk spent Sunday together on a trip into the San Fernando Valley. The party drove in two machines. They went as far as the aqueduct and saw a great deal of rich land and fine crops en route. On their return that evening they were witnesses to a bad accident when an old man was run down by an intoxicated man in a speeding machine. The driver passed the Walker party in Huntington Park and they saw an accident was due to curb as he was taking the curb to curb and was going at a rapid rate, so were not surprised a short distance further on to see the machine strike the man as he was crossing the street. He was insensible for some time and bled profusely from some bad wounds. The driver failed to stop so machines were sent to overtake him and he was held when brought back until the officers arrived. It is possible Mr. and Mrs. Walker may be called as witnesses in the case as they witnessed the wild career of the rider a greater distance than others who saw the accident occur.

Miss Gertrude Ambrose is spending the week visiting friends at San Pedro. Miss Jessie Courreges went to Los Angeles Friday and remained until Monday of this week visiting relatives and friends.

Mr. and Mrs. L. T. Wells and family, accompanied by Mr. and Mrs. Stephen Tulley of Huntington Beach, motored to Balboa Sunday afternoon, continuing their drive through several other sections of the county also.

**Bound Somewhere Overseas**  
John Courreges is, in all probability, at a port of embarkation for an overseas trip by this time as he left Fort Sill, Oklahoma, on Friday of last week, according to word received here by his sister, Miss Jessie Courreges. Courreges enlisted for service seven months ago and was assigned to duty at Camp Fremont, where he remained in training until a month ago, when he was transferred to Fort Sill. He had no idea, he stated in the letter, whether he was bound for France or Siberia.

Mr. and Mrs. Dan Dismukes and daughters, the Misses Bernice and Mildred, arrived Wednesday evening at the Chas. Ward home to remain as guests until Friday. They are from Fresno and came down Thursday of last week and have been visiting at the homes of different relatives prior to coming to visit the Wards. Dismukes is an uncle of Mrs. Ward.

### LADIES' AID PLANS BAZAAR AND SUPPER

TUSTIN, Sept. 13.—The Ladies' Aid Society of the Tustin Presbyterian church held its first meeting after a vacation of several months at the church. Plans for the fall work were discussed and arranged. It was decided to hold the usual bazaar and supper if everything is favorable about the first week in December, the exact date to be decided upon later.

At the close of the meeting the ladies walked down in a body to interview Mr. Utt and see if the vacant store building on Main and E streets can be obtained. This store is now being used for the manufacture of grape juice, but will be available for the Ladies' Aid bazaar.

W.S.S.  
Millinery opening, Saturday afternoon and evening, September 14. We've devoted almost our entire displays to the American idea—you'll like these models. They are very smart in every way. Miss Ruth Taylor, 309 N. Main St., I. O. O. F. Bldg.

## FINDS IN CASUALTY LIST NEWS OF HIS BROTHER'S DEATH

### Letter From Norman Christensen; Bryan Now Bound For Foreign Port

TUSTIN, Sept. 13.—Mr. and Mrs. H. P. Christensen have just received a letter from their son, Norman Christensen, who is in France, in which he speaks of coming off guard, picking up a paper and reading about his brother's death in the casualty list. Norman had just won a medal in a "shot for record in marksmanship," making him a sharp-shooter, which means an increase in monthly pay.

Mr. and Mrs. Christensen received a long distance message from their third son Bryan, who has enlisted in the navy, last Thursday to meet him at San Pedro Friday morning. A party comprising Mr. and Mrs. Christensen, little son Harold, Mrs. Bryan Christensen, Wm. Peterson, a visitor from Oregon, and Arno Finster, were taken to San Pedro Friday morning by Louis Klatt in his car to visit the boat on which Bryan left Sunday morning for a foreign port. The party was allowed to inspect the complete arrangements and splendid equipment of the boat, which was curiously camouflaged. Bryan Christensen is to be fireman on this boat, which was loading stores at San Pedro.

### W. C. T. U. ACCEPTS S. A. UNION'S INVITATION

TUSTIN, Sept. 13.—An enthusiastic meeting of the Tustin W. C. T. U. was held Thursday afternoon at the home of Mrs. L. A. Cock, who has just moved into the beautiful bungalow on the corner of Second and D streets. This was the first fall meeting, a mothers' meeting, and was well attended, there being two guests from Santa Ana.

The meeting opened with the president, Mrs. Sarah Brown, in the chair, with singing, "Pray on, O Christian Mother?" The W. C. T. U. pledge was repeated in unison and all joined in a salute to the flag, followed by the roll call and minutes of last meeting. The corresponding secretary read several communications. Among them was an invitation from the Santa Ana Union to attend an all-day meeting next Tuesday at Birch Park. All the Tustin members are cordially invited to attend and bring their lunch, cup and spoon and sugar if they prefer to have their coffee sweetened. The coffee will be served free.

There will be interesting speakers, among them Mrs. Stella B. Irvine and Mrs. L. C. Yeoman. Matters of great interest to the W. C. T. U. will be discussed. Motion was made and carried to accept the invitation. The treasurer, Mrs. Miller, gave a report of the finances, also expenditures of the war fund. A meeting was appointed for next Friday afternoon at the home of Mrs. Sarah Brown to make comfort bags for the soldiers. The next regular meeting will be held in two weeks at the home of Mrs. P. H. Ebel. Mrs. Cock cordially invited the Tustin Union to make her home a meeting place and to feel that it was at all times available for a W. C. T. U. meeting. The ladies accepted the invitation with thanks, as it is a delightful and central place for the purpose.

The program's meeting was along patriotic lines. Mrs. Hill of Santa Ana conducted the devotional exercises, reading a Bible lesson from Nehemiah and giving as her conviction that what the people of this nation need most now is to humble themselves before God. This was followed by a sacred musical record by Schubert. "Our Daddy Soldier Boy" was sung by Mrs. Hugh Wiley, with piano accompaniment by Mrs. J. O. Preble.

Mrs. Hill then gave a heart-to-heart talk about the mothers' department of the W. C. T. U. The great object for which the W. C. T. U. was organized and has worked seems about to be accomplished. Along what line shall it continue its work in the future? Mothers have a great responsibility in training the children to become Christians.

Mrs. Cock was at this time called to the telephone and came back smiling, saying this was truly a mothers' meeting, as she had just received the news that she had a new grandson born on registration day.

"God Be With Our Boys Tonight" was sung by Mrs. Vera Smith, accompanied by Miss Gertrude Utt.

The meeting adjourned after the hostess had entertained with several beautiful patriotic musical records.

### FRED MORGAN FAMILY WILL RESIDE IN L. A.

TUSTIN, Sept. 13.—Mr. and Mrs. Fred Morgan and family left Wednesday to make their home in Los Angeles.

On Tuesday evening a large party of Tustin girls met at the home of Miss Ada Squires for a farewell party in honor of Miss Lois Morgan on the eve of her departure for a new home in Los Angeles.

A happy evening was spent with the usual games and music. The hostess served dainty refreshments.

## BEAN THRESHERS AT WORK; PREPARE FOR HARVEST OF WALNUTS

TUSTIN, Sept. 13.—Business is brisk on the Tustin ranches at present. The bean threshers are going day and night. There seems to be plenty of helpers available.

There is beginning to be a lively dropping of walnuts. On the whole they are generally falling clean from the hull, which will facilitate the handling of the crop. Indications are that there will be a good crop of the finer grade.

### TUSTIN PERSONALS

TUSTIN, Sept. 13.—Mr. and Mrs. Ed Bladen, Miss Vada Bladen, Mrs. Casey Leach of Long Beach and Mr. and Mrs. Roy Knight of Yorba Linda were guests of Mrs. C. E. Young last Sunday.

Mrs. Ella Crawford, Miss Alice Crawford, Mr. and Mrs. W. S. Farlow, Mrs. Nancy Persons and Miss Frances Smith of Los Angeles were guests of Mr. and Mrs. Byron Crawford last Sunday. Mr. Farlow had several interesting letters to read to his friends from his son Perry Farlow, who is now in France.

Mrs. Geo. W. Hubbard and sister, Miss R. Wood, were visitors to Los Angeles on Wednesday.

Mr. and Mrs. Gus Eggert were guests of Mr. and Mrs. L. O. Cock at the week end.

Mr. and Mrs. John Adams of Wilmington, former Tustin residents, were in town last week visiting friends. They are preparing to move to Van Nuys, where Mr. Adams has purchased a ranch.

Miss Catherine Beswick will leave next Monday for Stanford University to begin a college course. She will be accompanied by her mother, Mrs. B. P. Beswick, who will make a visit to her sister, Mrs. Fowler at Hughson before her return.

Geo. Matthews, who is at the Naval Reserve camp at San Pedro, was at home visiting his friends last Friday till Tuesday.

C. E. Utt and son James and Andrew Joplin of Santa Ana left Wednesday for a fishing, hunting and general outing trip of two or three weeks at Mono Lake.

Mrs. Carry Oehenhausen of Pittsburg, Pa., Mr. and Mrs. M. E. Diebold and little daughter, June, and Mr. and Mrs. Frank Borchard of Hollywood were guests of Mr. and Mrs. Fred Beckman and Mrs. Harry Piepper last week end. The members of the party had been old neighbors in Cincinnati, Ohio.

Prof. and Mrs. E. H. Wood of Utica, N. Y., are guests of Dr. and Mrs. J. H. Daugherty. Prof. Wood is one of the faculty at Cornell University.

Mr. and Mrs. Jim Blackmore and two little daughters from Winchester were guests of Mr. and Mrs. Roy I. Smith last Saturday and Sunday. They were accompanied by Everett Blackmore on their return home.

N. S. Long was called to Compton on Tuesday on business. He paid a visit to Misses Louise Long and Ethel Doherty in Los Angeles, going on to San Pedro and Long Beach before returning home in the evening.

### SEVENTY-TWO WORKERS SEW FOR RED CROSS

TUSTIN, Sept. 13.—The Junior Red Cross workers of the 7-2 grade held a meeting at the home of Mrs. Frank Jones on Prospect and Seventeenth streets last Friday afternoon. The busy workers were engaged in the early part of the afternoon in sewing on quilt blocks and good work was accomplished. They then engaged in singing patriotic songs and playing games on the lawn. Delicious refreshments of pineapple ice cream and cookies were served, with decorations of flags.

Those enjoying a most delightful afternoon were Nellie Ware, Ada Bowe, Lillian Dowell, Frances and Mary Dunstan, Inez McArthur, Grace Squires, Margaret and Esther Jones, Eileen and Marian Young.

### LIBERTY BELLES HAVE JOLLY BEACH OUTING

TUSTIN, Sept. 13.—The Liberty Belles had an enjoyable outing last Saturday afternoon. They assembled at the home of the Misses Utt and motored to Balboa Beach, spending the afternoon swimming, boating and having a general good time until about 5:30, when a picnic lunch was spread.

Those of the party were Misses Catherine Beswick, Louise Utt, Dorothy Jones, Valeda Willard, Katherine Walker, Irene Preble, Jennie Pollard, Zena Leck, Lois Morgan, Ada Squires and Lillian Martin, and Mrs. Aaron Osmun.

The Liberty Belles held an extra meeting Thursday afternoon at the home of Miss Lillian Martin to complete arrangements for taking part in the sale of fancy articles at the benefit dance tonight.

## DON'T FORGET! RED CROSS DANCE IS THIS EVENING

### Elks Orchestra Will Furnish Music; At New Walnut House on East First

TUSTIN, Sept. 13.—Arrangements are complete and tickets are sold for the benefit dance tonight at the new walnut packing house on First street. The Elks' orchestra will furnish the music. Besides the dancing, there will be tempting things for sale displayed in attractive booths. All who fail to go will be sure to miss something worth while. Preparations have been made to entertain and interest everybody.

### MRS. BOWMAN HOSTESS TO LOYAL WORKERS

TUSTIN, Sept. 13.—The Tustin Eighth grade girls who have held regular meetings every week during the summer for Junior Red Cross work and have been very faithful, were entertained last Friday afternoon by their leader, Mrs. Charles Bowman. The party left Mrs. Bowman's home for a visit to the picture show and after enjoying a fine play had refreshments.

The girls were Grace Warner, Florence Mitchell, Helen Stanley and Marjorie Tubbs. The party was joined by Mrs. L. E. Allen, Kathleen Allen and Frances Bowman.

The girls will go to high school, but expect to continue their meetings every Saturday afternoon under the direction of Mrs. V. V. Tubbs.

### 106 GLASSES JELLY SENT TO SOLDIERS

TUSTIN, Sept. 13.—The full quota of jelly from the Tustin Red Cross branch to be sent to the soldiers' hospital at Camp Kearny was made up last Monday. The ladies were assisted by W. L. Leiby in packing and delivering the box to Mrs. Maslin in Santa Ana. The box contained 106 glasses and three quarts of fruit.

### GET ANNOUNCEMENT OF WEDDING AT PRESCOTT

TUSTIN, Sept. 13.—Announcements have been received of the wedding of Miss Helen Van Cartmell, formerly a popular young lady of Tustin, to Frederick Lawrence Bankston, at Prescott, Ariz., on Saturday, August 31.

### TUSTIN SOLDIER ON HIS WAY TO SIBERIA

### TUSTIN SCHOOL WILL OPEN MONDAY, SEPT. 30

TUSTIN, Sept. 13.—The Tustin grammar school opens Monday morning, September 30.

## CHARLES LOGAN HAD MANY CLOSE CALLS, NOW IS WOUNDED

### Was In 'Some' Battle Where Bullets Were Thickest; Herman Quandt With Him

TUSTIN, Sept. 13.—Mr. and Mrs. F. A. Logan of Tustin have just received a letter dated July 30, from their son, Private Charles F. Logan, of Company A, 59th U. S. Infantry, American E. F., France. Private Logan went to France in the early part of May and in this letter tells of his first battle. Although having many close calls, he came out without a scratch. He also speaks of having an old acquaintance, another Tustin boy, Herman Quandt, in the same company. That part of the letter of general interest to his Tustin and Santa Ana friends is as follows:

"I am well and feeling fine. I have not been sick a day since I landed over here. A few days ago we had quite a little excitement in this company. We were in our first battle and it was some battle, too. I was told it was one of the worst ever fought over here. Any one who has never been in a battle has no idea of what it is like. The noise is something terrible. I was very lucky to get out without a scratch, as I was right where the bullets were thickest and I was not on the ammunition wagon either. I had a good many close calls. One of the boys in the same trench with me laid his ammunition belt upon the bank for a few minutes and along came a shell and cut it in two and threw dirt all over us. After it was all over we just laughed, but it really was no laughing matter. Our outfit has been doing some fine work. You could never guess who is in this company now—Herman Quandt. He has been in a camp down in New Mexico and was transferred to this company when he got here. He is well and looking fine, just the same as ever.

"You asked me if there is anything I want for my birthday. For the present you want to forget I ever had one and just send me letters. There are lots of things I would like, but can't carry them around with me. Most everything we need is furnished us and what is not I can buy, as I have plenty of money and not very many places to spend it.

"There is a lot I wish I could write you, but cannot, but expect to be where I can tell you about it before many more months. Do not worry about me, for I am doing fine, and remember me to every one."

Another letter from Private Logan has been received informing his parents that he is in the hospital with a wounded arm. He is doing nicely, although he may be in the hospital for some time. Otherwise he is feeling well, and doing fine, with splendid care and "good eats."

### W. H. F. M. SOCIETY TO MEET WEDNESDAY

TUSTIN, Sept. 13.—The regular meeting of the W. H. F. M. Society of the Advent Christian Church will be held on Wednesday afternoon instead of Tuesday next week at the home of Mrs. John Poh.

Quantities of the bark of the South African wattle tree have been imported into the United Kingdom from Natal in recent years, but most of it prior to the war was exported to Germany and Belgium. Since then wattle bark has been utilized to a far greater extent by tanners in this country.

## A. H. MOORE STARTS BEAN THRESHER ON MESA CROP

WINTERSBURG, Sept. 12.—A. H. Moore started his bean thresher Thursday of this week and will keep busy the remainder of the season. The mesa beans are now about all ready to thresh, also a few in the lowlands.

The Barnes and Cox tomato crop, which consists of thirty-five acres on the A. D. Cleaver ranch, is now being harvested and a number of women of the community are assisting with the picking. Three teams are kept busy hauling from the field. The crop is for seed altogether and they are put through the extracting process here.

### Harvests Sugar Beets

A. J. Murdy returned home Monday morning from Anaheim, where he has been employed on a dredger, and on Tuesday morning commenced taking out his ten-acre sugar beet crop on his ranch at Smetzer.

John Mudry, who has also been employed on the same dredger with his father, will continue work for two weeks, at which time he expects to enter U. S. C. As he is subject to military training, he will begin his college course in connection, six hours training per day being the time assigned for this purpose, besides the regular study hours at the university.

Mr. and Mrs. J. W. Culver and family and Mr. and Mrs. P. A. Isenor and family drove to Long Beach on Sunday.

Mr. and Mrs. John Cady were Los Angeles visitors on Monday.

Miss Ruth Jordan returned from Redlands the past week preparatory to the opening of the Oceanview school Monday, of which faculty she is a member. She is staying again for the term at the W. F. Slater home.

Mrs. George McGurk went to Hemet Tuesday, where the day was spent with her sister-in-law, Mrs. McGurk returned with her machine well loaded with peaches for canning.

Prof. and Mrs. E. G. Thompson left for their home at Sanger, Fresno county, Sunday evening, following a week's visit at the home of Mr. and Mrs. A. H. Moore. Prof. Thompson is principal of the Sanger high school and returns to assume his duties with the opening of the term.

Mr. and Mrs. A. J. Murdy received a letter from their son-in-law, Finis Commons, following his arrival home upon leaving here after a few weeks' visit. Commons left here Tuesday of last week at 8 p. m. and reached Turlock at 8 a. m., having driven all night. He made the trip without a single stop for machine trouble.

Miss Laura Lewis of Los Angeles, mother of Mrs. D. W. C. Dimock, was a guest Tuesday and Wednesday at the Dimock home.

### C. E.'S TO MEET AT UTT HOME SATURDAY

TUSTIN, Sept. 13.—The members of the Tustin Presbyterian Christian Endeavor Society are requested to come to the Utt home Saturday evening at 7 o'clock and bring anything they have which is valuable for making posters. Important. Signed President.

The first Norwegian seed-culture union has just been formed. Commercial Agent Norman L. Anderson reports that the organization's chief object is to render Norway independent of foreign sources of seeds, of which considerable quantities have been imported in the past. The district of Sorlandet is said to be especially well adapted to the raising of seeds.

## THE NEW WALNUT HOUSE WILL BE OPEN SEPT. 20

### All Nuts Must Be Thoroughly Dried; Others to Be Culls; Rumors Are False

The new walnut house of the Santa Ana Walnut Growers' Association, just completed here will be open to receive nuts on Friday, September 20, according to announcement just made by Secretary O. H. Burke, who incorporates the announcement in a circular letter soon to be mailed to all members.

"Nuts must be thoroughly dried," reads the letter. "Undried nuts will not take the bleach and will be graded as culls."

"All culling will be done in the walnut house."

"We advise cleaning the ground of all blows, off colored and diseased nuts, as our machinery will handle them. When ground up, we can dispose of the husks."

"To eliminate mouldy, unevenly dried nuts, we advise stirring in trays at least twice a day."

"Do not wash nuts without consulting with the management of the house. Payments of 12½¢ per pound gross weight at door will be made weekly or upon application if desired until the price is set, which will be about October 10th."

"Rumors that we are advising our members to sell to independent buyers are absolutely false."

"Our 'Central', the California Walnut Growers' Association, states that the demand for nuts is very strong and new members are earnestly solicited until Saturday night, September 21st, when our books for the 1918 year will be closed."

"We ask the co-operation of each loyal member to secure at least one of their neighbors who are not members."

"Note—We respectfully advise our larger growers that our weighing platforms hold 15 sacks; kindly deliver in multiples of 15, thereby saving time and expense in house."

### SAN BERNARDINO HAS RURAL FIRE FIGHTERS

SAN BERNARDINO, Sept. 12.—Farmers of San Bernardino county are becoming well organized as volunteer fire fighters throughout the agricultural districts. Farm Adviser H. F. Behmeier has succeeded in interesting the residents in forming companies and to date the following have reported teams:

You can save or waste in buying clothes

THERE are many ways to serve the country besides fighting; men on the farm; men under fighting age; men in business keeping things going for the fighters; all can serve in some way. Serve in your clothes buying. May-

be you can save money by not buying any; you may have clothes enough. If you need to buy, save by getting the best clothes possible; the kind that last long; good durable fabrics; staunch service able tailoring.

Hart Schaffner & Marx Clothes

They're made to save, not to waste materials and labor; they're the kind it pays to buy. Let us show you the new war styles when you decide you want clothes; they're refined, simple, saving

# A LECTURE ON CHRISTIAN SCIENCE: "A REASON FOR CHRISTIAN HEALING"

By BLISS KNAPP, C. S. B.  
Member of the Board of Lectureship  
of The Mother Church, The First  
Church of Christ, Scientist, in  
Boston, Mass.

Member of the Board of Lectureship  
of The Mother Church, The First  
Church of Christ, Scientist, in Bos-  
ton, Mass.

Friends: In behalf of First  
Church of Christ, Scientist, of Santa  
Ana, it is my pleasure to bid you wel-  
come to this lecture this evening.  
Christian Science, discovered and  
founded by Mary Baker Eddy, is ex-  
tending to all humanity the invitation  
to share its bestowals of knowledge  
and understanding of God—which  
brings health, happiness, peace, free-  
dom—Life itself, indeed, is repeating  
the heavenly message of Scripture:  
"Ho! every one that thirsteth come  
ye to the waters!"

In the Manual of The Mother  
Church, written by our beloved leader,  
Mrs. Eddy, provision is made for a  
Board of Lectureship, and consists of  
men and women who have studied  
and proved the teachings of Christian  
Science to be the teachings of Christ  
Jesus, and are thereby enabled to  
speak with authority.

I take pleasure in presenting to  
you Mr. Bliss Knapp, C. S. B., of Bos-  
ton, Mass., member of the Board of  
Lectureship of The Mother Church,  
The First Church of Christ, Scientist,  
in Boston, Mass., who will now ad-  
dress you.

There is no doubt that everyone  
would do well to consider earnestly  
Paul's advice to the Thessalonians to  
"prove all things." It is true that one  
does not really believe that which he  
has not proved; true that only that  
faith which is founded on actual dem-  
onstration will survive the ordeal of  
human experience. Paul was not sat-  
isfied with a mere acceptance of his  
teaching. He well knew that, unless  
his statements were proved to be true  
beyond the possibility of a doubt, his  
instruction had been of no avail. So  
he depicts the trial of faith by which  
Noah was able to overcome seeming  
impossibilities; and Abraham, who  
offered up Isaac, believing "that God  
was able to raise him up, even from  
the dead." Throughout the ages the  
truth of the Word has been attested  
by "signs following." Although, as it  
is written, God "called" unto Moses,  
and bade him bring forth the children  
of Israel out of Egypt, his hesitation  
was only overcome by two great evi-  
dences of spiritual power,—the hand-  
ling of the serpent, and the healing of  
leprosy. This manifestation of divine  
authority lessened his sense of per-  
sonal ability, and assured him of the  
confidence of the people; for he had  
the explanation from God that if  
the people would not believe the first  
sign, they would believe the latter  
sign, which indicated the power of  
God to heal disease. The opposition  
to Moses' leadership operated most  
actively through his sister Miriam;  
but when he healed her of leprosy,  
and yet others of serpent bites, their  
doubts were overwhelmed by the at-  
testation of God's protecting care.

Centuries later, a sign was deman-  
ded of Jesus by certain scribes and  
Pharisees who did not believe his  
testimony, and he answered, "An evil  
and adulterous generation seeketh  
after a sign; and there shall no sign  
be given it, but the sign of the proph-  
et Jonas;" which is repentance. But  
when the messengers of John the  
Baptist questioned him in perfectly  
good faith, he said, "Go and show  
John again those things which ye do  
hear and see: The blind receive sight,  
the lame walk, the lepers are cleansed,  
and the deaf hear, the dead are raised  
up, and the poor have the gospel  
preached to them. And blessed is he  
whoever shall not be offended in me."

**Healing Attested in Christian Science**  
The Christian Science Church  
adopted a like method of answering  
honest inquiry. Our church provides a  
testimonial meeting where mem-  
bers of the congregation may bear  
witness to the healing power of God  
which they themselves have seen or  
experienced. They may describe  
cases of healing like the one which  
brought my own family to Christian  
Science. For thirteen years my moth-  
er had suffered from a difficulty said  
by physicians to be inflammatory  
rheumatism. Her joints became dis-  
torted and she gradually became a  
helpless cripple and a great sufferer.  
Finally the physicians told her that  
she had but a short time to live. As  
a last resort, we sought the aid of a  
Christian Science practitioner, and  
after two weeks' treatment, my moth-  
er regained her health; her joints  
were restored to their natural con-  
dition, and she enjoyed perfect health  
thereafter.

The healing of my mother was so ob-  
vious that it could not be ignored. It  
was just as evident to her friends  
and neighbors as to herself. It con-  
vinced us that Christian Science is  
that Science of Christianity which  
Jesus demonstrated, for her healing  
could no more be disputed than the  
healing of the blind man as reported  
in the Gospels. To those who doubted  
the possibility of his healing, he re-  
plied simply, "Whereas I was blind,  
now I see." He could not tell how  
this change had been wrought, but he  
knew that it was not denied. Christian  
Science provides the explanation of  
that healing, and it is the purpose of  
this lecture to present that explana-  
tion to you.

**Healing Methods Contrasted**  
An epidemic seldom attacks more  
than twenty per cent of a population.  
When confronted by such an epidem-  
ic, it is customary for physicians to  
study the cause of the calamity from  
a physical viewpoint,—carefully anal-  
yzing, the while, the former physi-  
cal condition of every afflicted indi-  
vidual. It does not occur to them to  
question what made the eighty per  
cent immune. The physician painstakingly  
diagnose the disease, because  
he is governed by the belief that  
health is a condition of the flesh. He  
supposes it to be a personal posses-  
sion, humanly circumscribed, and the  
body to be a kind of storage battery  
generating the vital current. The  
Christian Scientist, in such a case,  
studies just as thoroughly the origin  
of health, for it is evident to him that

A large attendance marked the  
Christian Science lecture, herewith  
reproduced, which was given at the  
Grand Opera House last night, by  
Bliss Knapp. The lecturer was in-  
troduced by Mrs. Berenice C.  
Fletcher, second reader of the local  
church.

health and not disease is the object  
of his search. He knows that Jesus  
presented the only perfect system of  
healing known to men, and he taught  
his disciples how to restore health  
by starting with the proposition that  
God is the creator of it.

**Health a Divine Right**  
When the framers of the American  
Constitution admitted that life, lib-  
erty and the pursuit of happiness are  
creations of God, and not of man,  
their task was wonderfully simplified.  
They recognized the fact that they  
were not required to create any rights  
but simply to interpret those that  
were already created. The success of  
that instrument, the Constitution of  
the United States of America, depend-  
ed upon the correctness of their in-  
terpretation of that which was fun-  
damentally right. The result has  
been a model of democratic govern-  
ment.

When men are willing to concede  
that health, as well as life, or liberty,  
is a divine right, divinely bestowed  
upon man by his creator, they will  
cease to believe in, or fear, the so-  
called laws of health which originate  
in mortal opinion, and will become  
interpreters of that inherent right.  
They will cease to be autocrats in  
the government of their own bodies,  
and their health will increase in pro-  
portion to their understanding that  
in God we all "live, and move, and  
have our being."

**God Instructing Moses**  
The first exhibition of healing re-  
corded in the Bible came by looking  
away from the body into the true  
nature of God. For forty years,  
Moses had been governing the flocks  
of Jethro, his father-in-law, with  
autocratic power. The sign or sym-  
bol of that autocratic power was a  
shepherd's rod. When, by the direc-  
tion of God, the rod was cast down  
and became a serpent, Moses was  
afraid. He had never learned that  
human will was the serpent in the  
Garden of Eden. Nor did he under-  
stand how to gain supremacy over it.  
But obedience to God's command es-  
tablished that supremacy. That les-  
son enabled Moses to learn two great  
facts,—that human will and person-  
ified sin are interchangeable, and that  
obedience to divine guidance gave  
him the mastery over sin. The divine  
supremacy has been expressed in the  
Lord's Prayer, "Thy will be done in  
earth, as it is in heaven."

Doubtless Moses believed that  
health is a condition of the flesh, and  
when he thrust his hand into his bosom  
and withdrew it leprosy-ridden, there  
was the evidence of his erroneous be-  
lief. The healing that followed taught  
him to turn from the body to find  
power and health in the will of God.

**Healing Law Discovered**  
The power of God had been recog-  
nized for a long time, but not His  
healing nature. It will be remembered  
that long before, God had revealed  
Himself to Abraham as the Al-  
mighty, the one supreme power gov-  
erning the universe and man. But it  
was a mere abstraction. There was  
no mode by which human conscious-  
ness could approach this truth. Con-  
sequently all that Abraham could do  
was to entertain a supreme faith in  
the omnipotence of God. The faith  
of Abraham has been referred to  
throughout the Bible.

The works of faith continued as  
God said to Moses, "I appeared unto  
Abraham, unto Isaac, and unto Jacob,  
by the name of God Almighty, but by  
my name Jehovah was I not known  
to them," indicating that there was  
more to learn about the nature of  
God than the one fact of His supreme  
power. When finally Moses discovered  
that the supreme power of God  
reaches individual human experience  
through law, it ceased instantly to  
be an abstraction and became a con-  
crete power with a well-defined mode  
of approach, and for this discovery  
of Moses that the supreme power of  
God reaches to the individual human  
experience through law, he has been  
known as the law-giver. When it  
became known that divine power  
reaches individual human experience,  
not through any form of idolatry, but  
through any graven image, but  
through well-defined law, the secret  
of divine healing was disclosed.  
Moses could then be guided by divine  
intelligence, and thus heal leprosy  
and serpent bites with mathematical  
certainty and precision. The nature  
of God had been proved in human  
experience to be a power of health  
and purity. It reached beyond faith  
and appealed directly to reason and  
understanding.

Therefore, "Acquaint now thyself  
with him (that is, with God), and be  
at peace." One who is sick is not at  
peace. One who is distressed in mind  
or body with sin, disease or fear, is  
not at peace. Nevertheless acquaint-  
ance with the divine nature endows  
one with the power of peace, which  
necessarily rules out all disturbance,  
whether mental or physical. Therein  
is presented in a brief statement the  
precise method of Christian healing,—  
acquaintance with the truth about the  
nature of God. Mrs. Eddy has reit-  
erated that in her book, "Science and  
Health, with Key to the Scriptures"  
(p. 72), as follows, "Not personal in-  
tercommunication but divine law is the  
communicator of truth, health, and  
harmony to earth and humanity."

**Truth Healing Scientific**  
That which is unchanging, and  
which also operates through law, is  
Truth. So we find Moses declaring,  
"Thou art a God of truth, and without  
deceit." When therefore Jesus de-  
clared, "Ye shall know me by my fruit,  
and the truth shall make you free," he  
explained the operation of a Christian  
Science treatment. To know the  
Truth is to understand the unchang-  
ing nature of God as a power of  
health and purity operating through  
law. He who ever one really under-  
stands the law can express. When one  
understands that two and two make  
four, he can express that fact. Then

to understand the healing and purify-  
ing nature of God, enables one to ex-  
press that nature. Such is the power  
of freedom in mind and body. This  
explanation of Christian healing will,  
I think, leave no impression that we  
ignore difficulties, although some aver  
that a Christian Scientist endeavors  
to heal by trying to imagine that the  
condition is not there. It is evident  
that this is a misapprehension; for  
imagination is a state of ignorance;  
and ignorance never healed anything  
and it never can.

Disease is unquestionably evil and,  
therefore, it cannot be the truth of  
being. Inasmuch as Christian Science  
is a Science, its method of dealing  
with error is precisely as it is done  
in mathematics. If a mathematician  
is confronted with the misstatement  
that two and two make five, he does  
not study that mistake; for a mis-  
take which is true can be understood.  
That is why David in the psalm asks  
the question, "Who can understand  
his errors?" No one can; not one.  
Consequently an intelligent individual  
will never try to do it. He will study  
more thoroughly the rule of truth  
that governs the problem, and act in  
obedience thereto. Then the error dis-  
appears before intelligence. And where  
has it gone? Into its native unreality.  
The only reality the error ever has  
is in the individual's ignorance of the  
truth. It ceases to exist to his intel-  
ligent understanding. Consequently  
an error is real or unreal only to the  
degree of the individual's ignorance  
or intelligence concerning the truth.  
It is the Truth that makes free.

**Disease Mental**  
A Christian Scientist learns that  
disease is essentially mental in its  
cause. As long as he believes it to  
be entirely physical, he may well  
feel helpless before it. In fact there  
could be no such thing as Christian  
healing if disease were actually phys-  
ical. The medical schools of today  
have been employing experiments  
which indicate the mental cause of  
disease. There can be no doubt that  
in every case it is the result of  
wrong thinking. Medical experiments  
have proved conclusively that the  
individual's thinking seriously affects  
the circulation of the blood, and some  
interesting conclusions have been  
drawn from the observation of the ef-  
fect of wrong thinking on the body.  
Perhaps the most common observa-  
tion is the flushed or pallid face that  
results from anger. People have been  
known to die in a fit of anger and  
also from extreme fright. Since the  
discovery of the X-ray, physicians  
have been able to learn the effect of  
thought on the digestive system. The  
method is simple enough. Some harm-  
less, opaque substance like bismuth  
is mixed with the food. Then as one  
eats the prepared food, the entire  
process of its digestion may be ob-  
served with the X-ray. By that meth-  
od, physicians have proved that the  
digestion of students taking a severe  
examination, in great fear, has been  
retarded fully two hours. Anger also  
retards digestion and poisons the  
system. The results of other experi-  
ments might be presented, but these  
are sufficient to indicate the neces-  
sity of correcting thought when dealing  
with disease.

Suppose, for example, one has eaten  
something and soon after is seized  
with distressing pain in the stomach.  
The pain is a distinct physical sensa-  
tion which cannot be ignored. A  
Christian Science practitioner is sum-  
moned and he immediately remem-  
bers the testimony of Christ Jesus,  
"Not that which goeth into the mouth  
defileth a man; but that which cometh  
out of the mouth, this defileth a  
man," a saying which once offended  
the Pharisees.

The disciples sought an explanation  
of the parable from Jesus, remarking  
on the offense which it gave to the  
Pharisees. Surprised at their lack of  
understanding, Jesus proceeded to  
explain that "whatsoever entereth in  
at the mouth goeth into the belly,  
and is cast out into the draught. But  
those things which proceed out of the  
mouth come forth from the heart;  
and they defile the man." Regardless  
of what thought or act may occasion  
the pain, if the patient would only  
refuse to admit it into his heart or  
mind, it could not defile him. But  
when one begins to take it into his  
heart or mind, giving to it a supposed  
cause or reason, that defiles the man.  
"For out of the heart proceed evil  
thoughts, murders, adulteries, forni-  
cations, thefts, false witness, blas-  
phemies: These are the things which  
defile a man." When the testimony  
of the flesh is overbalanced by the  
peace, joy and power of God's ever-  
presence, then the truth will indeed  
make us free.

**Contemplating Truth a Corrective**  
Christian healing has nothing in  
common with the will of the flesh. On  
the other hand, it is in complete  
agreement with the will of God. For  
that reason it can never be divorced  
from Christian theology. To medi-  
tate on the nature of God, in the full  
expectation of gaining a better under-  
standing of Him, is generally consid-  
ered a distinct mark of devotion. To  
meditate thus in full sincerity must  
feed and satisfy one with His health  
and holiness.

One may behold a beautiful field of  
flowers. As he stops to contemplate  
their rare beauty, his thought is fed  
and satisfied. He has taken nothing  
from them, but he has gained much  
that is enduring. Thus thousands of  
people, devout in their thought of  
God, have turned to Him to meditate  
on the beauty of His goodness, on the  
strength of His meekness, and on the  
nourishing thought of His purity and  
health, and they have been healed of  
dire afflictions. Those satisfying  
thoughts have corrected the proclivi-  
ties of the flesh, and the truth has  
made them free.

**Footsteps to Mrs. Eddy's Discovery**  
Mrs. Eddy was long a member of  
the Congregational church, and the  
devotional culture she received there  
at home fitted her to understand  
and demonstrate the Principle of  
divine healing. When a child she was  
taken with a fever. Her mother talk-  
ed to her of God and assured her that  
God would surely answer her pray-  
ers, if she would only turn to Him.

As the little girl prayed fervent-  
ly, the fever left her and her moth-  
er rejoiced over the speedy re-  
covery. Later while she was attend-  
ing a neighboring school, a man es-  
caped from an insane asylum, ap-  
proached the children at play, holding  
a club threateningly in his hand.  
Mary Baker walked up to him fear-  
lessly and naturally, imbued with a  
religious sense of God's presence and  
power. The man became subdued  
and gentle, and departed at her re-  
quest. The following Sunday he ap-  
peared at her side during the morn-  
ing service in the church. There he  
permitted himself to be taken in  
charge by an officer and led away.  
Some years later, when grown to  
womanhood, she healed a child of  
severe eye trouble by her fervent  
prayers to God.

The direct cause which led to the  
discovery of Christian Science was  
Mrs. Eddy's own healing in 1866. She  
had received a very serious injury by  
falling on the ice. The physician who  
attended her at the time believed that  
her injury would prove fatal. When  
she knew that nothing material could  
save her, Mrs. Eddy turned to her  
Bible for consolation. Reading its  
sacred truths with singleness of pur-  
pose and the faith that spiritual un-  
derstanding could save her, she wit-  
nessed the immediate operation of the  
truth. Her healing was complete.  
She arose, dressed herself and start-  
led the family by her sudden appear-  
ance. Nothing but the power of God  
could produce such a sudden transfor-  
mation, and with joy and gratitude  
Mrs. Eddy gave all the glory to Him.

**Scriptural Interpretation**  
It is by no means an uncommon oc-  
currence for devout people to be heal-  
ed by their study of the Bible. But  
Mrs. Eddy could not be satisfied  
with the physical healing alone. She  
must know the Science or Principle  
of that healing. Indeed she believed  
she had a right to that knowledge, in-  
asmuch as Jesus had promised another  
Comforter, which he defined as  
"the Spirit of truth." If "the Spirit of  
truth" was not to be understood and  
obeyed then one might, perhaps un-  
wittingly, obey error. But the truth  
had made her free and it was her  
right to know the explanation of that  
experience. Scriptural study took on  
a new meaning in her search for an  
explanation of Christian healing. Step  
by step spiritual law was interpreted  
in a new light. Her conclusions were  
systematically recorded and fairly  
tested in the healing of disease and  
sin. That elucidation of the scrip-  
tures formed the basis of her more  
complete work known as "Science  
and Health, with Key to the Scrip-  
tures," first published in 1875—nine  
years after her discovery.

Ever since the publication of

Science and Health, disease and sin  
have been healed through the study  
of it. As one ponders the explanation  
of scriptural texts with which it is  
filled, mind and body are refreshed  
and painful misconceptions are cor-  
rected. It has in other words brought  
a return of primitive Christian heal-  
ing. In recognition of her distin-  
guished service as interpreter of the  
Bible, the French Government has  
honored Mrs. Eddy by making her an  
officer of the French Academy.

For nearly twenty-five years I en-  
joyed a personal acquaintance with  
Mrs. Eddy. Twice she was a guest  
in our home, and I have been hon-  
ored with invitations to her home. I have  
been familiar with her home life and  
with the members of her household;  
have had considerable correspondence  
with her; so that I have an actual  
knowledge of the purity and conse-  
cration of her life. But the testimony  
of men is barren as compared with  
the record of her achievements. That  
she has written a book, the mere read-  
ing of which will heal morally and  
physically, proves more accurately  
than can any other thing the nature  
of her true character.

Only an exact science can solve  
every problem. Experimental knowl-  
edge would necessarily omit some  
problems because of the limitations  
of human thought. But Christian  
Science has been tested with every  
human problem and found sufficient  
for them all, because it interprets the  
fundamental rights of man to life,  
health, and the pursuit of happiness.  
Mrs. Eddy did not create those rights.  
She simply interpreted that which is  
already created. The success of Chris-  
tian Science has been entirely de-  
pendent upon the correctness of the  
interpretation.

**Church Organization**  
When the framers of the American  
Constitution wrote their interpreta-  
tion of man's inalienable rights they  
saw the wisdom of protecting the  
integrity of that interpretation by the  
organization of an army and navy.  
So Mrs. Eddy saw the wisdom of pro-  
tecting her interpretation of the scrip-  
tures by the organization of a church.  
That in turn requires a code of laws  
for its government. The membership  
of the Christian Science Church is  
virtually a record of those individuals  
who have been benefited by its teach-  
ings and have enlisted in their de-  
fense. The institutional work of the  
church is therefore essential to the  
proper protection of its teachings.

The first Christian Science Church  
was established in 1879 with twenty-  
six members. Ten years later the  
congregation had increased to about  
250, and today there is a regular con-  
gregation in Boston of over 4000. In  
addition to the central organization,  
there are two other Christian Science  
churches in Boston, and fifteen or  
more in the suburbs, all within a ra-

dius of ten miles. Meanwhile the  
movement has spread throughout the  
civilized world. In fact, there is no  
religious movement known that has  
attained to such proportions in so  
short a time.

Every Christian Science church  
throughout the world can trace its  
origin to the healing of some disease  
or sin. It is like theparable of the  
seed. The result is the healing,  
which is the harvest. In the joy of  
freedom, he hands the literature to  
a friend. Benefits begin to in-  
crease; little groups gather for dis-  
cussion; and soon there develops a  
Christian Science church. All be-  
cause the seed of Truth is in itself.  
It is like leaven, "which a woman  
took, and hid in three measures of  
meal, till the whole was leavened."  
It propagates itself, cares for itself  
and brings in the increase.

**Wheat and Tares**

Sometimes an enemy may sow tares  
among the wheat. Then let them  
grow together until the harvest, when  
the difference becomes perfectly ap-  
parent. The tares are in outward ap-  
pearance, just like the wheat. The  
tares have a stalk, spike, husk and  
all, just like the wheat. But the  
husks are barren of fruit, and "By  
their fruits shall ye know them." The  
seeds of the tares are considered  
poisonous, and the plant is said to  
have an intoxicating quality akin to  
infatuation.

The modern tares are the seeds of  
hypnotic suggestion and the will of  
the flesh. They are poisonous and  
produce that intoxicating quality  
which is akin to infatuation, inflam-  
ing the nimal propensities. They are  
hypnotic suggestions and human will  
and are the products of the carnal,  
sinful mind, which is enmity against  
God. They are the polar opposites of  
the spiritual Mind which Christ Jesus  
manifested, and we are specifically  
enjoined by the scriptures "Let this  
mind be in you, which was also in  
Christ Jesus."

**Conclusion**  
The Christian Scientist must,  
therefore, examine his thoughts and  
learn their origin. He learns to make  
the distinction between good and  
evil; for evil operates through sug-  
gestion or impulse and appeals to  
the nerves or flesh; whereas the pow-  
er of God operates through good  
alone, never through animal magne-  
tism. The power of God is communi-  
cated to individual human experience  
through divine law, and appeals to  
the reason or spiritual understanding.

It operates, in other words, exactly  
like honesty, from Principle. There  
are not as many different kinds of  
honesty as there are different human  
opinions. There is just one honesty,  
and everybody may have it, because  
it is everywhere and operates through  
law. Then as one yields his obedience  
to the power of its government, be-  
cause of its reasonable rightness, he  
gains the power of its Principle. It  
will correct all dishonest tendencies  
and establish him in the government  
of the one Mind, which was also in  
Christ Jesus. By looking to this Prin-  
ciple for health and purity, and  
yielding loving obedience to its cor-  
rective government, Christian Sci-  
entists are proving the truth of Mrs.  
Eddy's assertion on line 29 of page  
97 of the Christian Science text-book:  
"Christianity is again demonstrating  
the Life that is Truth, and the Truth  
that is Life, by the apostolic work  
of casting out error and healing the  
sick."

**FOREST FIRES AND  
THE LABOR PROBLEM**

California has sent many of her men  
into our army and navy. More drafts  
are coming. More and more men are  
needed for aeroplane construction and  
for work in munition factories and in  
building ships. A serious labor short-  
age is upon us. What can you do about  
it? Preventable fires, man-caused  
fires, in the National forests of Cali-  
fornia used the equivalent of 400 men  
working every day for four months  
last summer. You and your neighbors  
can make this labor count in winning  
the war if you will preach and prac-  
tice care with fire.

**A MATCH HAS A HEAD,  
BUT CAN'T USE IT**

Man has a head but doesn't use it,  
when he observes the wheatless days,  
then burns up the grain fields; when  
he cuts timber for ships and aero-  
planes, and then lets fire destroy logs  
and lumber; when he saves meat and  
then sets fire to hay, pasture and sum-  
mer range. Uns your head. Don't be  
like the match. Preach and practice  
care with fire. Help win the war.

**OUR FIRING LINE**

Our firing line is in France with our  
own boys who are fighting against the  
Hut in the cause of justice and hu-  
manity. Our job here at home is to  
build ships, send more men to France,  
and keep them supplied with food and  
munitions. All these things and many  
others are prevented or destroyed by  
fire. You can help lengthen our firing  
line in France by shortening the fire  
lines in California.

## Scorified Melilotus Seed

Through the scorifying process our Melilotus has been so thoroughly  
cleared that the Berkeley test shows only one-third of one per cent  
inert matter. Think of it. A purity test of 99.42 and a germination  
of 98.50. Good Melilotus often shows only a germination of 80 per cent—  
but think of the difference between 80 per cent and 98.50.

When you spend good money—insist on getting good seed. Melilotus  
is endorsed by the Government as the best wartime cover crop. Plant  
Melilotus and feed your barley and bean straw.

# MANY ARE THRESHING BEANS THIS WEEK AT WESTMINSTER

WESTMINSTER, Sept. 13.—A number of the farmers are threshing beans this week. W. B. McCoy threshed twenty acres on Monday and is to finish the remainder of the crop today. Others threshing this week are W. D. Johnston, Cervantes, Jack Nankervis and Otto Hoffman.

Mrs. Albert Kettler was taken to the hospital at Garden Grove Monday morning, suffering from appendicitis. She was accompanied by her mother and Mr. Kettler. As she grew steadily worse an operation was deemed necessary and it was successfully performed at 5:30 in the afternoon. At last account she was doing nicely and able to take simple nourishment. Mrs. Phil McClintock accompanied Mrs. Edwards on a visit to the hospital Wednesday afternoon.

**Attend Pioneer's Funeral**  
Those from this place attending the funeral of W. T. House in Santa Ana Monday were Mr. and Mrs. R. E. Larter, Mrs. M. J. Larter, Mrs. J. F. Paterson and Mrs. O. B. Byram.

The beautiful and impressive service was conducted by Rev. Lloyd Darsie, who also assisted in the singing of the selections, "My Father Knows," "Under His Wings" and "Face to Face." Interment was in Fairhaven cemetery. Mr. House resided in Westminster from 1877 to 1881, engaging in the mercantile business in the building now owned by J. O. Craig. He went back to Canada and returned to this county about ten years ago. He was very highly respected by all who knew him. He was present last year at the Westminster reunion at Anaheim Landing, but passed away the day before the reunion took place this year.

**Red Cross Reports**  
The knitting class of the Red Cross has turned in ninety-nine pairs of socks and five sweaters between May 22 and September 3. Better progress was made with the gray yarn than with the white. Seventy-seven gowns for Belgian girls will be ready to turn in this week. The president of the Red Cross, Mrs. A. J. Fogler, attended the meeting of the chapter in Santa Ana last Thursday and received instructions to hold the election of officers the latter part of October to correspond with the elections of the Santa Ana chapter and facilitate the making out of reports.

Mrs. George Waters spent last week at the home of her son, Charles Waters, in Santa Ana.

spent Sunday at San Pedro. Mrs. Charles Walton is having a month's vacation from the telephone office and is with her sister, Mrs. Lloyd Edwards.

Mr. and Mrs. C. B. McCall attended the farewell to the soldiers at Santa Ana last week.

Mr. and Mrs. E. C. Phelps have been assisting Mr. and Mrs. Arthur Phelps in their preparations to move to Cucamonga. They left Tuesday for that place where Mr. Phelps has secured a position with a merchant. It is thought the change will prove beneficial to their son, Gerald, who has been suffering from anemia.

Mr. and Mrs. Henry Pope of Long Beach, and daughter, Mrs. Maude Winton, were guests Tuesday of their daughter, Mrs. J. H. Walton.

Jake Price of Camp Kearny was at home for a visit on Sunday.

Mrs. Roissy made a business trip to Long Beach Monday, remaining several days.

Mr. and Mrs. Neally, son Irwin and daughters, Misses Hazel and Faith, of Stockton, and Mrs. J. A. McClintock of Santa Ana, called Thursday on Mr. and Mrs. Phil McClintock. The Neallys were friends of Mr. McClintock when they lived in Old Newport.

Mr. and Mrs. Ray Saylor and children, who have been spending the past two months with relatives here and at Long Beach, returned Tuesday to their home in Tempe, Ariz. Mr. Saylor's health was considerably improved during his stay in a cooler climate.

Miss Lavina Rich and her friend, Miss Josephine Winters, were weekend guests of Mrs. Edward Wertz in Long Beach.

Misses Lucile Sudow and Florence Kerr returned last week from an enjoyable trip to Catalina, where they spent a week with friends.

Mrs. James Kerr left Tuesday for a week's visit with her sister, Mrs. Davis, in Los Angeles.

**Missionary Meeting**  
The Women's Missionary Society of the Presbyterian church met Wednesday afternoon. The devotionals were in charge of Mrs. George Francis. Miss Florence Larter had the foreign subject of "India" and Mrs. Wardle, "The Woman's Board of Home Missions." As the magazines are so late in coming it was decided to take the subject of the month before so as to get the help from the mission monthlies. As it is now the magazines do not arrive until after the meeting. The Garden Grove members are to have charge of the next meeting, which will be held in that place.

Mrs. Kruger, Mr. and Mrs. James Johnson and month-old daughter, Shirley Louise, of Los Angeles, spent Sunday with Mr. Kruger.

Miss Bertha Dickey went Thursday to Pasadena. From there she will go in company with Mr. and Mrs. J. Storey of that place and Mr. and Mrs. Perle Glass of Corona to spend some time in Little Bear valley.

Mr. and Mrs. W. J. Edwards made a trip to Long Beach Tuesday afternoon to see their daughter, Mrs. Frances Stuffle, who is now at the De Luxe hotel convalescing after leaving the hospital.

Mrs. Byars received a card from her son, Riley Peeden, just arrived in France, stating he was well and giving his address with the military police at headquarters.

**NINE-YEAR-OLD BOY JUMPS INTO BAY TO SAVE HIS COMPANION**

Both Go Under, But Taken From Water By Bay Webster In Power Launch

NEWPORT BEACH, Sept. 13.—While bathing in the bay at the end of the Jackson-Norton Company's pier at Balboa, Stewart Hinkley, of Redlands, ventured too far out, and but for the pluck and courage of his companion, nine-year-old Robert Foreman, the lad would have undoubtedly lost his life.

The boys were playing around the wharf and young Hinkley, who could not swim, was at the end of the pier and hanging on to a rope when he suddenly lost his hold on it and shouted for help. Although only nine years old, his companion leaped into the bay and swam to the assistance of his friend. The former clung with death-like tenacity to his would-be rescuer, who was unable to keep both himself and the other helpless lad afloat. While women stood on the bay front and shouted hysterically for help, the boys disappeared for the second time and it was thought they were surely drowned, but help was speeding to them.

H. Bay Webster, who happened to be on his power launch, the "Anacapa," hurried to the scene and just as the boys were going down for the last time, he grabbed them by the arms and pulled both aboard the boat. The Hinkley boy was unconscious but soon revived. Robert Foreman is the son of Mrs. Gertrude Foreman.

# WHITE TOP ANIMAL HOSPITAL HAS MANY STRANGE PATIENTS

Sick Animals Know That Barnum & Bailey Veterinarian Is Their Friend in Need

A little monkey with a broken leg looks pathetically up into the eyes of Dr. John Patterson, chief veterinarian with the Barnum & Bailey circus. Patiently he endures the pain of having the broken member set and placed in splints. Then he remains quite still until the gentle doctor lifts him up and carries him to the animal hospital attached to the show. The little sufferer knows that the doctor is his friend and that he is being helped to get well. So do most of the other animals in the circus understand when Dr. Patterson treats them for various ailments.

This strange department of veterinary medicine and surgery is maintained as a necessary adjunct to the Barnum & Bailey circus which is to exhibit in Santa Ana on September 20. Not only does the menagerie of the big circus house more than 1,000 wild animals of every kind and description, but the show also carries this season more than 750 horses. Despite the best of care, it is impossible to keep each and every member of this immense Noah's Ark in perfect health at all times, so a skilled veterinary surgeon is really a necessity.

A small hospital tent for the animals is erected on the circus grounds every day, and it is here that the ailing horses and other animals are kept and treated. Sometimes the hospital is unoccupied for weeks at a time, but on other occasions it may be full to overflowing. Dr. Patterson and his score of assistants make a personal examination of every horse and every menagerie animal daily, and the utmost vigilance is exercised to keep the animals in a healthful condition.

Most of the animals are easily handled and seem to understand that medical treatment will do them good instead of harm, but now and then an extremely difficult case presents itself for consideration. Not long ago it was found necessary to remove some ingrowing claws that were driving a beautiful lioness frantic with pain. It required the combined efforts of eight men to rope and hold the lioness while the operation was being performed. A piece of scantling was thrust into the cage to pin the animal in a corner; then a noose was dropped over her head. While this was going on ropes were also slipped about the animal's head and body. She was drawn firmly against the bars and, as her feet protruded through them, they were seized and held. In this way the surgeon was able to do his work in safety.

Animals live very healthy lives, and serious illnesses are the exception and

not the rule. The out-of-door life seems to agree with all of them, and the veterinary is really a busier man in the winter-time when the show is not on the road, than he is during the regular circus season.

# 2 BATHERS RESCUED FROM THE SURF BY THREE FISHERMEN

NEWPORT BEACH, Sept. 13.—Three Newport Beach fishermen covered themselves with salt water and glory besides reaping a reward Sunday when they pulled two bathers out of the surf just west of the Southern Pacific wharf. The men were not able to swim and ventured out beyond their depth before realizing the danger.

Their appeals for assistance were answered by "Steamboat" McDonald, Chandler Johnston and Louis Dixon, who launched a dory and went to the rescue. With methodical precision born from a long and close acquaintanceship with the sea, the daring fisher lads drove their boat through the rolling, tumbling surf and out to the helpless bathers, who were hauled from their perilous predicament into the dory and brought safely back to shore.

The men were so grateful for their deliverance from the jaws of death that they rewarded the fishermen with a five-dollar bill, which, although not much of a price for two human lives, showed that their hearts were in the right place. It was reported that the men were from Santa Ana, but they vanished so quickly that their names could not be obtained.

**Dale Opens Hardware Store**  
The D. A. Dale Hardware Company of Santa Ana has leased the brick block on the corner of Twenty-third street and Bay avenue, formerly occupied by the Newport Wine and Liquor Company and owned by William Meurs, Sr. The Dale company expects to put in a full line of hardware, paints, oils and building accessories. It is reported that the new concern has secured a five-year lease on the building and will at once begin plans for opening the new business.

**ALFALFA CATERPILLAR PEST**  
PORTERVILLE, Sept. 12.—Alfalfa caterpillars are doing an unusual amount of damage in the ranch district west of here, and thus far no means of control of the pest has been found. In prior seasons while the caterpillar was present during the early portion of the season, the amount of damage was not important. This year their ravages promise to be commercially important.

# PLAN CO-OPERATIVE LIMA BEAN COMPANY

SAWTELLE, Sept. 12.—Lima bean growers in this district are busy with the plans for the formation of a co-operative association. The purpose is to turn the entire output over to the federal government for use in supplying the soldiers in camp and overseas. The idea is to handle the entire output as one crop, turning everything into the warehouses within thirty days after threshing and leaving the work of cleaning, sorting and sacking to the warehouses. Aside from giving the grower an installment as first payment upon delivery of the beans, it is argued that the cost to the government would be considerably lower through this method than by following the ordinary process of marketing. Cutting of limas in several of the earlier fields has been started and will be general soon. Power cutters are being given a try-out with apparently satisfactory results.

# HOW A YOUNG GIRL SUFFERED

And Was Restored to Health By Lydia E. Pinkham's Vegetable Compound—Told By Her Mother.

Brooklyn, N. Y.—"I cannot praise Lydia E. Pinkham's Vegetable Compound enough for what it has done for my daughter. She was 15 years of age, very sickly and pale and she had to stay home from school most of the time. She suffered agonies from backache and dizziness and was without appetite. For three months she was under the doctor's care and got no better, always complaining about her back and side aching so I didn't know what to do. I read in the papers about your wonderful medicine so I made up my mind to try it. She has taken five bottles of Lydia E. Pinkham's Vegetable Compound and doesn't complain any more about her back and side aching. I gained in weight and feels much better. I recommend Lydia E. Pinkham's Vegetable Compound to all mothers and daughters."—Mrs. M. F. FLORE, 516 Marcy Ave., Brooklyn, N. Y.

Each year Balboa grows more popular as a beach resort. Each year the number of visitors increases, the number of cottages grows, the wealth of opportunities is intensified. And it will always be so. The call for recreation, rest and the joy of outings will always find an answer at Balboa.

With the glittering sea upon one side and the smooth blue waters of the bay on the other, Balboa has advantages to offer that cannot be surpassed by any beach on the coast. There is fishing and boating and swimming in sea and bay. The jetty at the entrance of the bay has made a safe entrance for pleasure boats, and the bay is now headquarters for the yacht club. That alone tells the story of the rising of the community to meet the demands of its patrons.

There is a splendid pavilion at Balboa.

As indicated in the accompanying advertisements, there is a variety of business firms at Balboa to meet the demands of the people. Fishing and boating are developed into a specialty. Places like the De Aro furnish excellent accommodations. It is the aim of these advertisers to please their patrons by those courtesies that mean so much to casual visitors anywhere.
